APPEAL TO PRESIDENT TO BLOCK RAIL WAGE CUTS

HIGHEST COURT BACKS BERGER AGAINST LANDIS

Says Another Judge Should Have Acted

BY ARTHUR SEARS HENNING.

Washington, D. C., Jan. 31.—[Special.]—In an opinion condemning Judge Landis for trying a case in which he was accused of prejudice against Germans, the Supreme court today rendered a decision which will result in a retrial of Victor Berger, Wisconsin Socialist leader, and four others, on charges of disloyalty during the war.

Berger was sentenced to twenty years' imprisonment for obstructing the draft by his writings, and twice was denied the seat in the house of representatives to which he had been elected, once before and once after his conviction. He was a candidate again last November, but was defeated.

By a vote of 6 to 3 the court held that Judge Landis had "no lawful right or power to preside" in the Berger trial for the reason that he was accused of bias and prejudice against the defendant.

Absolute Justice Sought.

Judge Landis was not held by the Supreme court to have been guilty of the Socialist's charge of prejudice and bias but the court decided that in the insurance of absolute justice it would have been wiser for him to allow another judge to preside.

The case now goes back to the Seventh Circuit Court of Appeals. On the basis of the Supreme court's decision, the Circuit court undoubtedly will drop the case back to the United States District court of northern Illinois for retrial before some jurist other than Judge Landis.

Similar procedure probably will follow in the cases of William F. Kruse, Adolph Germer, J. Louis Engdahl, and Irwin St. John Tucker, Berger's co-defendants.

The majority opinion was rendered by Justice McKenna, with Chief Justice White and Justices Holmes, Van Devanter, Brandeis, and Clarke concurring. The dissenting Justices were McReynolds, Day, and Pitney, who stoutly defended Judge Landis.

Quotes Landis' Viewpoint.

The judgment was based on an affidavit of prejudice filed against Judge Landis by the defendants before they came to trial. In this affidavit some of Judge Landis' utterances against disloyal German-Americans were quoted to show his bias and unfitness to preside in such a trial.

"Your hearts are reeking with disloyalty," was one of the statements attributed to the judge in sentencing a convicted German-American in a previous trial.

When the case was carried to the Circuit court that tribunal pronounced these three questions to the Supreme court:

"1. Is the affidavit of prejudice sufficient to invoke the operation of the act which provides for filing of an affidavit of prejudice of a judge?"

"2. Did Landis have a right to pass upon the sufficiency of the said affidavit of prejudice or upon any question arising out of the filing of said affidavit?"

"3. Upon the filing of the said affidavit did the said judge have lawful right and power to preside as judge on the trial of plaintiffs in error on said indictment?"

The court's findings.

The Supreme court responded to these questions in the following language:

"To the first question we answer yes; that is, that the affidavit of prejudice is sufficient to invoke the operation of the act."

"To the second we answer to the extent we have indicated Judge Landis had a lawful right to pass upon the sufficiency of the affidavit."

"To the third we answer no; that is, Judge Landis had no lawful right or power to preside as judge on the trial of defendants upon the indictment."

Justice McKenna, in reading the majority opinion, asserted that federal judges should readily allow another judge to preside if any charge of prejudice, substantiated in any particular, is presented. The view of the court was that the judge should lean toward defendants to insure absolute justice.

Judge Tells What He Said.

Judge Landis, in overruling the retrial for another judge, presented the official stenographic report of the remarks he made which the Socialists claimed revealed prejudice. These remarks were not the same as those quoted in the affidavit of prejudice, and the court claimed the affidavit was not sustained on page 5, column 2.)

RADIO PHONES TO LINK UP 22 HIGH SCHOOLS

Chicago's twenty-two high schools are to be equipped with radio telephone and telegraph instruments. Stations already have been established at the Lane Technical high school and at the Sheldon High school, it became known yesterday.

Delivery of apparatus for installation at the Schurz, Senn and Tuley high schools is expected this week. Bids on wireless equipment for the remaining schools are being received. It is estimated the Chicago school wireless system, the first of the kind, will be installed at a cost of about \$50,000.

Contracts for equipping the five schools mentioned were let to the Chicago Radio Laboratory, 1316 Carmen avenue.

The plan to connect all high schools by wireless is said to have been fathered by A. G. Bauersfeld, supervisor of technical work in the high schools.

Mr. Bauersfeld believes the system will make it possible to transmit virtually all inter-high school business by radio telephone. The board of education specifications call for the very latest in wireless equipment. The radio telephones being installed have a day range of about 100 miles for transmission of intelligible speech; messages carry about twice as far at night. The telegraph instruments have a day range of approximately 200 miles.

DIVORCEE SEEKS HALF MILLION OF KINGDON GOULD

Defendant Accused of "Vamp" Role.

New York, Jan. 31.—[Special.]—Attorneys for Kingdon Gould, younger son of George Jay Gould, appeared before the Supreme Court Justice Finch in private chambers to argue a motion for the vacation of an order issued by Justice Finch directing young Gould to appear and submit to an examination before trial on a \$500,000 breach of promise action in which the plaintiff is Mrs. Richard Blum, a divorcee of Arkville, N. Y.

Reading from papers, Norman P. J. Schloss, attorney for Mrs. Blum, outlined the case in his response to the motion of Robert B. Knowles, attorney for the young millionaire.

Helped in Divorce, Is Charge.

Schloss related that Mrs. Blum's home at Arkville was near the estate of Kingdon Gould; that Gould repeatedly "importuned" her and solicited her to leave the marital state, telling her that her husband, a practicing physician, was not true to her; that Gould "deliberately set out to show to her, a married woman living with her husband, that she was foolish in continuing to live with a man untrue to her."

Then, continued Schloss, Gould furnished Mrs. Blum with money to employ four detectives to watch her husband, and eventually found evidence whereupon Mrs. Blum was granted a divorce on June 6, 1917.

After the divorce, Schloss said, Mrs. Blum and Gould again exchanged promises to marry, but July 2, 1917, Gould married Miss Annunziata Camilla Maria Lucci, an artist.

Alleges Compromise Offer.

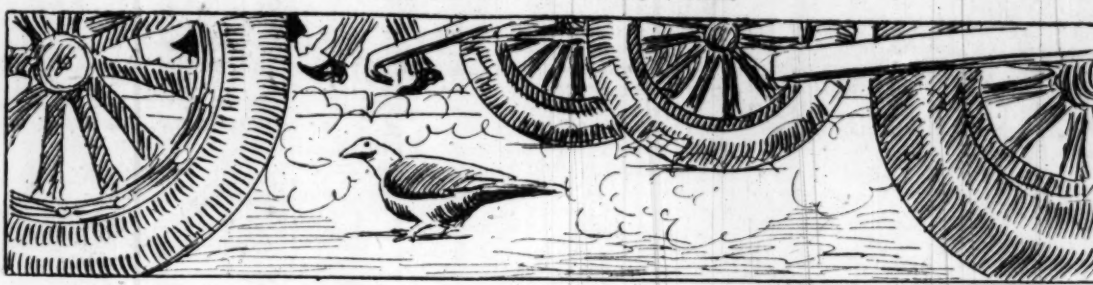

Schloss also stated, in the course of a heated passage of words between him and Knowles, that Gould's attorneys had offered \$100,000 in settlement of Mrs. Blum's action.

Justice Finch adjourned the hearing until next Saturday, directing attorneys to file papers with him before then.

Gould was present at the hearing. He was visibly nervous, tugging constantly at his long black mustache and taking a keen interest. He winked at reporters when attorneys protested their presence. While awaiting the beginning of the hearing he passed the time by matching coins with a man seated beside him in the antechamber.

AN HOUR IN THE LIFE OF A CITY PIGEON

(Copyright, 1921, By The Chicago Tribune.)

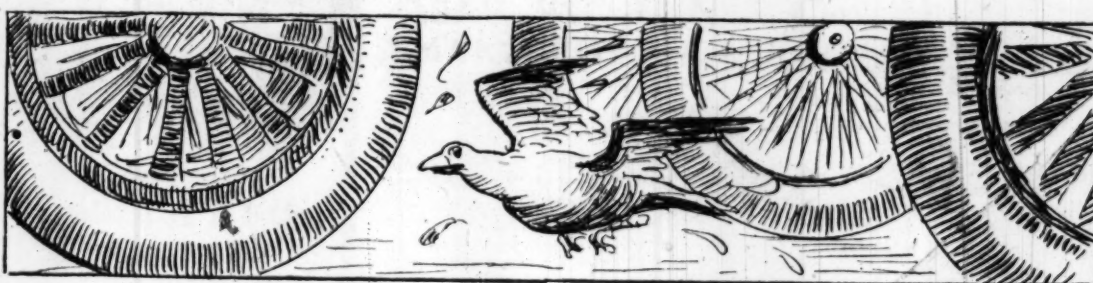

8:00 a. m.—Had a hairbreadth escape from death. Was looking at a lady in galoshes and a truck wheel missed me by an inch.

8:05 a. m.—Big touring car rushed down on me and I just escaped a violent death.

8:10 a. m.—While strolling on the street just now a charging taxi was upon me like a flash. Escaped death by the fraction of a second.

8:15 a. m.—After successful volplane from fifteenth story window ledge I panicked on the asphalt. Caught between two cars. Narrowly escaped death.

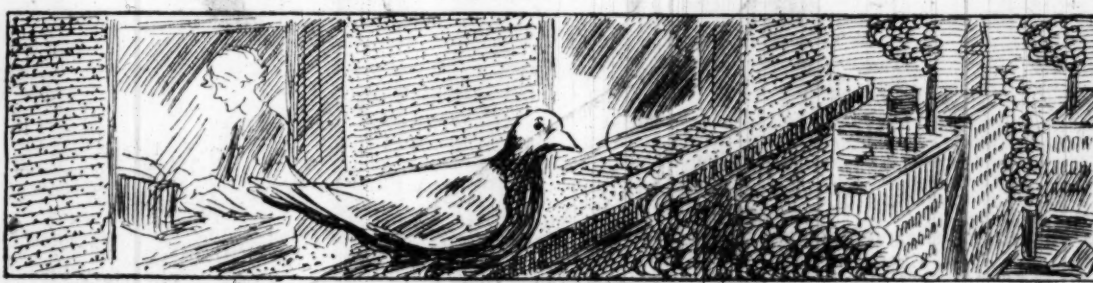

8:20 a. m.—A motorcycle just grazed my neck. Another instant and I would have been potential potpie.

8:25 a. m.—Just looked death in the face again. A woman driven electric crept up unawares and I lost three more tail feathers. Soon I won't have any left.

8:30 a. m.—Was nearly asphyxiated by gasoline fumes. While dizzy, narrowly escaped death nine times.

8:35 a. m.—Flew up to the ledge again, but beautiful young lady who feeds me was busy. This building is soot black. It hasn't been washed for nearly a month.

8:40 a. m.—I wish cinders were good to eat. Went down to pavement again and was nearly run over by a car with patched tires. What a humiliating death! It makes me shudder.

8:45 a. m.—I ought to take a bath, but what's the use? I'd just get dirty again. I wonder if the sun is out today. This ought to be called the City Scuttler.

8:50 a. m.—I see so much of time it makes me weary. Tires and feet! What a life! These automobiles never blow their horns and some day I'll get run over. And then who'll be to blame?

8:55 a. m.—Well, I guess I'll fly over to see the tower of the new Shimmey building. They say the view is fine from there.

ANTHRAX FOUND HERE; TRACED TO SHAVING BRUSH

Anthrax, the malignant disease carried by the hides or hair of cattle, again made its appearance in Chicago yesterday, and Acting Health Commissioner Koehler issued a warning that one man shaving brushes he bought for thirty minutes before use.

Joseph Fritz, 1935 Maude avenue, is the anthrax victim. His case was traced to the use of a shaving brush which he bought at a west side store for 29 cents. A carton of the brushes was taken to Dr. F. O. Toney, head of the health department laboratories, for analysis. The brushes bore no manufacturer's label.

"The most dangerous brushes are the cheaper ones containing horse hair," Dr. Toney said. "They are stiff and roughen the face, giving the anthrax germ entrance. To be safe use a soft brush and boil it before using."

Woman Felled, Robbed of \$800 Gems, Left in Street

Mrs. M. H. Stevens, wife of a realty dealer living at 2555 East Seventy-second street, was knocked down last night by an automobile bandit, robbed of a \$500 diamond lavalliere, a \$350 diamond ring, and \$15 in cash, and left unconscious in the middle of the street.

She was walking at Seventy-first street and South Shore avenue when a large touring car stopped at the curb. She said it contained a number of men. One, armed with a revolver, jumped out, seized her by the throat, and said: "Give me your jewelry."

"I haven't any," she said.

He struck her over the head with the revolver and as she fell grabbed the jewelry and her purse.

TRIBUNE'S CHILD LEADS MORNING N. Y. CIRCULATION

New York, Jan. 31.—[Special.]—The Daily News, New York's picture newspaper—the first and only one of its type in America—will start tomorrow, in a display announcement:

"The Daily News now has the largest morning circulation in New York City—and we can prove it."

This flourishing youngster, New York's picture newspaper, is of interest here as being the offspring of THE TRIBUNE. For a daily paper established only a year ago last June to take the lead in the morning newspaper field in New York is some achievement, but it has not approached the circulation of its Chicago parent, nor—no matter how it hustles—will it reach THE TRIBUNE's ever growing total.

Raid Evanston Cellar; Carry Off Canned Fruit

Encouraged by their success in obtaining eight bottles of Italian vermuth at the residence of Attorney P. H. Truman, 2736 Harrison street, Evanston, burglars are believed to have tried to increase their stock by breaking into the cellar of P. H. Atwell, 2228 Wesley avenue, Evanston, yesterday. They took some fruit preserves.

London Has 55 Sleeping Sickness Cases in Month

LONDON, Jan. 31.—Fifty-five cases of sleeping sickness have been reported during the last four weeks in this city. This is a large increase, only twenty-three being reported in the previous period of four weeks.

OAK PARK JUGS PAIR 12 MINUTES AFTER ROBBERY

Action! Speed! Ah! The Oak Park police are operating, ladies and gentlemen. The play is, "Done in Twelve Minutes." Camera!

6:10 p. m.—William Templeton, official of Perley Howe & Co., and son, Frank, of P. H. Templeton & Co., arrive at garage, 542 Washington boulevard, Oak Park. Two robbers appear.

6:11 p. m.—Come! Quick—your money! One hundred dollars is produced by the Templetons. Robbers hop in Templeton car, speed away.

6:12 p. m.—Templetons phone police.

6:13 p. m.—Sergeant Fred Onthank and Patrolman Harry Spoonholz, Harry Wilson, Fred Kruger, and Frank Murphy man police silver. G-r-r-r-z-z-z-z-z.

6:18 p. m.—Police meet robbers at Western and Madison streets. Jam cars. Arrest. Names: Joseph Bethel, 2925 West Monroe street; Frank Muzie, 1316 South Halsted street.

6:22 p. m.—Plover squad in station. "Ho-hum!" when will Mr. Templeton ever call for his car!

HUNT HOSPITAL 'RAFFLES'; TAKES DOCTORS' COATS

Mysterious operations of a sneak thief in St. Luke's hospital have perplexed officials of the institution, and detectives during the last two weeks.

The intruder operates only in the doctors' coatroom, and has been given the sobriquet of "the coatroom Raffles" by physicians of the staff.

The thief is interested only in overcoats. He always takes the best overcoat in sight. Among those who have lost overcoats is Dr. Michael Goldenberg, eye, ear, and nose specialist, in the Moore building.

"Yes, Raffles got my overcoat," said Dr. Goldenberg last night. "I was operating upstairs, and when I came downstairs to get my wraps my coat was gone. I don't care about the coat, but all my keys were in the key. If Raffles will only return my keys he can keep the coat."

PERFECT DAY FOR HARDING'S FISHING PARTY

Miami, Fla., Jan. 31.—Perfect weather favored President Eliot Harding and his party today on their fishing trip off Coccolob Island, south of Miami.

The yacht Shadow is expected to return to Miami late tomorrow and, unless Mr. Harding changes his plans and yields to the temptation of the Coccolob Island, he will start Wednesday morning on his return trip to St. Augustine.

"No country can go through war without a period of readjustment, but we have reached the lowest step and are on the upgrade," Mr. Harding said in an interview published by a local newspaper today.

Doctor Gains Three Days Racing Death in Alaska

Anchorage, Alaska, Jan. 31.—Dr. Beeson, local physician who, by train, boat and dog sled, is racing to Iditarod to attend Claude Baker, reported seriously ill, was reported today to have reached Fort Gibbon, the halfway point, last night, three days ahead of schedule. The party has covered more than 400 miles of the journey, through blizzards and low temperatures, traveling night and day.

E. L. Ryerson Stricken as He Starts for West

Edward L. Ryerson, steel magnate and president of Joseph T. Ryerson & Sons, was stricken with appendicitis yesterday as he was about to leave for Santa Barbara, Cal., where he intended to spend the remainder of the winter. He was taken to St. Luke's hospital, where he was operated upon by Dr. L. L. McArthur. The patient's condition was favorable last night.

SEVEN UNIONS SPEED PLEA BY WIRE TO WILSON

Charge Inefficiency Bankrupts Roads.

BY ARTHUR M. EVANS.

Seven chiefs of railroad brotherhoods and international unions sent a shout to President Wilson last night that the roads are seeking to make labor the scapegoat for waste caused by inefficient and uneconomical management.

The lines, they declared, are in a "conspiracy to inflate the cost of operation in order to destroy the unions" and exploit the traveling and shipping public. They appealed for an inquiry by the interstate commerce commission and subsequent action by congress.

It was by way of counterblast to the request made before the United States labor board earlier in the day by the railway executives through W. W. Atterbury, vice president of the Pennsylvania lines, that the "national working agreements" be abrogated without delay in order to avert "railroad bankruptcy, financial shock and still wider unemployment."

If the board would wipe out the "agreements," no cuts in basic wages would be asked for ninety days, except Gen. Atterbury's proposal ran, except that the basic rates for common labor should be retracted immediately.

Ready for Finish Fight.

Labor at once made ready for a finish fight. B. M. Jewell, head of the railway employees department of the American Federation of Labor, served notice that he will make formal rebuttal in a day or so, perhaps today. He led off with a telegram to President Wilson, saying that labor is "shocked beyond expression" by the action of the railway executives.

The message to the White House charged that Gen. Atterbury, by delivering an "ultimatum" to the labor board, "violated all decent proprieties, disregarded the transportation act, and flouted the existing agencies, such as the interstate commerce commission, and even congress itself."

Gen. Atterbury's policy, the telegram said, is "to take advantage of a temporary business depression to reduce rates of pay and working agreements. He also desires to disrupt and destroy the unions of railway employees by taking advantage of the existing depression."

General Conspiracy Charged.

"Similar policies," it continues, "have already been adopted in other industries. Rates of pay have been reduced without justification. Attempts have been made to destroy labor organizations under an alleged 'open shop' movement."

Mr. Atterbury is the representative of these same sinister activities among railroad executives. His object is not so much immediate financial relief to the railroads as to break down labor organizations and to place wages and working conditions on a pre-war basis, so that railway profits may be enhanced when prosperity returns. The shipper is to be charged excessive freight rates and the railways workers are to be exploited."

Ten Charges.

The telegram made ten charges, which it declared were based on facts divulged by an investigation of the management of the roads:

"That the transportation system of the country is absolutely controlled by the New York banking group centering around the house of Morgan.

"That this group is treating economic service to the public and the welfare of the employees as a consideration secondary to the selfish purpose of squeezing shippers and farmers and of destroying legitimate organization of their employees.

"That investigations made by governmental agencies all show that railroads have encouraged inefficiency and inflated costs.

"That the roads have deliberately attempted to prevent employees from showing records of efficiency under the national agreements, and in many cases have undermined morale.

"That, despite claims as to the restoration of efficiency under private ownership, the roads have found it to their interest temporarily to operate inefficiently and uneconomically.

"That they are attempting to discredit organized labor by charging this lack of economy to the organizations of their employees.

"That they have revived the old financial practices which prevailed previous to the passage of the Clayton act in 1914.

"That they have contracted with

Drug Crazed, Strikes Baby, Robs Mother

Flourishing a pistol, a drug crazed burglar entered the apartment of R. S. Houts, 6548 Yale avenue, yesterday a y afternoon.

He terrorized Mrs. Houts and her 2 year old daughter Jane and escaped with a diamond ring, a lavalliere, and \$53 in cash.

In an adjoining room lay another baby daughter, Barbara, just 2 weeks old.

Details of police from the Englewood and nearby stations scoured the south side for the bandit last night.

It was about 2 o'clock in the afternoon that Mrs. Houts, her babies asleep in their cribs, stepped across the hall to visit a neighbor, Mrs. L. A. Lauritzen. She left her door ajar. For five minutes she talked. Then she tiptoed back.

Babe Cries; Thief Curses.

As she stepped into the living room the eldest daughter, Jane, cried: "Mamma!" She heard a gasp and a muffled curse. She rushed into the bedroom.

A blonde young man dressed in a gray suit, with a sallow complexion and very pale, gazed at her from behind an automatic pistol.

"Keep quiet or I'll blow your damned head off!" he snapped. The baby screamed. He slapped it across the face.

Woman Falls in Faint.

As the man fled Mrs. Houts dropped in a faint. When she revived she called Mrs. Lauritzen, who notified her husband and the police.

The robber leaped a four foot brick wall outside the house and disappeared in an alley. The only clue found by the police was a jimmy lying on the back stairs.

Mr. Houts, who is a partner in the Odell W. Crawshaw Service company, 527 South Dearborn street, reached his home half an hour later and found his wife in a state of nervous collapse. He led a search of the neighborhood for the robber.

Police declared the nervousness and sallow complexion of the bandit indicated he was a drug fiend.

FIRE BOMB ON ROOF ROUTS 30 NEGRO FAMILIES

Flames believed to have been started by a "fire bomb" hurled on to the roof of a four story flat building at 740 East Forty-fifth street early this morning routed thirty colored families.

The explosion and fire are laid to labor trouble. According to F. W. Hersh Jr., agent for the building, there have been three fires in three months since the owner, F. M. Combes, had trouble with a contractor. Tenants in the apartments say there have been rumors for more than a week that "something would happen" if the electricians now working were not taken off the job. All say they heard an explosion before the flames leaped from the flat to the fourth floor.

Policeman Ernest Schleman discovered the fire. Rushing through the smoke filled halls, he spread the alarm, rousing the tenants, and then ran to the fire station at Cottage Grove avenue and Forty-sixth street. Most of the tenants, scantily clad, escaped down the fire escapes. Two children were carried out. No one was injured. Mr. Hersh estimated the damage at \$20,000.

Second Demand for Money.

The second letter received from the kidnappers was sent to O. S. Witherell at the Financial Loan and Investment company, 1214 Eldersburg building, this city. It was dated Jan. 28, 8 p. m. Los Angeles, on the post mark. Written by Floyd Carr on a small type writer, it read:

POLICE GUARD KIDNAPERS TO FOIL ANY MOB

Mrs. Witherell Safe; Tells Vivid Story.

Los Angeles, Cal., Jan. 31.—[Special.]—With a cordon of deputy sheriffs and extra policemen thrown about the county jail to guard them from possible violence at the hands of enraged citizens, Floyd L. Carr and Arthur Watson (Jack) Carr, confessed kidnapers of Mrs. Gladys Witherell,

awaiting the formality of another hearing before receiving sentence for the crime which has kept Southern California in a furore of indignant excitement for nearly a week.

The police department's plans, made hurriedly this morning after the arrest of the abductors, who are cousins, and the release of the young wife and mother, to have the men on their way to the penitentiary before daylight, was frustrated at the eleventh hour by Floyd Carr.

Swift Retribution Failed.

The men were brought before Justice of the Peace Hineshaw early this afternoon under heavy guard. The group of officers and prisoners was followed through the streets by a large crowd of men.

Questioned by the justice, they admitted the kidnapping, and were held to the Superior court. Taken before Superior Judge Sidney Reese, who sat in special session, they pleaded guilty, but the older cousin suddenly asked that sentence be deferred.

"We can present mitigating evidence," he said. "We would like to have counsel."

Judge Reese assigned an acting public defender to the case and continued the hearing until Wednesday.

Found on Lonely Bench.

Mrs. Witherell, 25-year-old wife of O. S. Witherell, wealthy broker and former member of the Chicago Athletic association, who formerly resided at 5459 Kenmore avenue, Chicago, was rescued before daylight and detectives headed by Police Capt. Clayton and Mr. Witherell, from a tiny ranch shack on a deserted sheep pasture five miles from Corona, a village seventy miles southeast of this city.

She had not been harmed since taken from her home last Tuesday evening by means of a fake appeal for help from a woman she was told had been injured and was calling for her.

When the officers burst in the door of the hut, she was being guarded by Floyd Carr, "Jack," having been arrested in Los Angeles at 11 o'clock last night while telephoning Mr. Witherell regarding the ransom.

Pitiful Letters from Woman.

The kidnappers' demands for \$20,000 ransom were contained in a series of three notes mailed and delivered by the men at different times throughout the last six days. The first was addressed to O. S. Witherell at his home, 1543 Witley avenue. It was written Tuesday, immediately after the kidnapping, mailed Wednesday, and delivered Thursday morning. It was typed written on plain paper, and in the envelope was a note from Mrs. Witherell regarding the ransom.

"Mr. Witherell: By the time you receive this you will have notified the police, but that will do you no good, as your wife is in a safe place where she will be kept until you have left \$20,000 next Saturday eve in a place you will be told of later."

Accompanying the kidnappers' letter was a note from Mrs. Witherell. It was dated Thursday and read:

"Lambie, Dear: Please hurry and get me home. I am all right, so far, but you must not wait long. I must have you help me. Please do as these people wish—get all the money you can, and if you want me, put it where they want it."

"Surely I will try and repay you all if I ever get home. Cook spinach and rice, and carrots for Jack, and make custard because just milk won't be enough. Have seen the morning paper. It says \$50,000. No, they only want \$20,000. I don't know how you can get it. Lambie, but help me because I need it."

"Papa and Edith, please you help me, too. I am not worth it, but I long to come home again. Please don't wait so long. Hurry, hurry. I hope this reaches you. The three just dings along. Why are you so slow?"

"P. S.—There is no use writing any more, as it won't help any but I want you to know I must come home, Lambie, please."

Third Letter Is Sierner.

The third letter from the kidnappers came in this morning's mail to Witherell's office. Witherell has not yet seen the letter.

Witherell then authorized detectives to open the letter when it arrived at his office. The letter read: "Mr. Witherell: After following up the different leads the police have not found where Gladys is located, so you see it is no use for them, they have nothing to work on, so if you are going to meet the demands, and will go to the Valley boulevard until you come to a red light lying on the ground, leave the money in a bundle well wrapped, turn around and go back to the city and in less than ten hours Gladys will be home; that is if you do so alone and don't try to catch the one sent for the money, as they could not give you any information where she is and it would only make the amount demanded raised at least half, which would have to be paid in full."

"Follow the above instructions and everything will be O. K."

In her own handwriting and across the side of the letter Mrs. Witherell wrote down the following notes:

"Lambie: Leave home about quarter after 8—please hurry and get me. I'm all right. Lovingly, GLADYS."

This letter was mailed in Los Angeles Jan. 30 at 11:50 p. m.

Floyd Carr Brains of Plot.

According to the story of the kidnappers, they were in the city looking for Mrs. Witherell's father-in-law because of a deal a year ago in which a fishing yacht figured. The crime had two motives—revenge and ransom. Floyd Carr was the brains of the plot. About midnight last Tuesday, Floyd went to the Witherell home. He told Mrs. Witherell that a woman had been hurt and had asked him to summon her. Expecting her mother-in-law for dinner, she thought it might be she, and went with the men in their automobile.

From that moment until her rescue this morning, she vanished completely from sight.

Telephone Girls to the Rescue.

The recent findings of Mrs. Alma Bryant, night operator, was responsible for the clue which led to the arrest of "Jack" Carr in a telephone booth in the United States depot at the corner of Fifth and Los Angeles streets.

Heretofore merely disembodied voices heard over the wires, the four operators tonight are the heroines of Los Angeles' most sensational drama. Mrs. Bryant told how she and Miss George Pond, Bertha Heere and Bessie Schaffer sprang the trap.

"We had been told," she said, "to keep a close watch on the Witherell telephone. At the conversation which we were to learn the number of the incoming call. Then we were to notify the authorities. When the call for the Witherell home last night I listened in and heard the word 'ransom.' Then we got busy."

While one of the girls found out the number two others called the detectives.

STORY OF KIDNAPING

"We sure treated the little dame all right," "Jack" Carr said when he finally unbuttoned himself at the police station, whether he was taken after he was seized in the telephone booth. "We even bought her candy and the daily papers and a powder puff."

This sums up the story of the five days passed by Mrs. Witherell in the dreary little "house" today, holding her 18-month-old baby, Jack, in her arms, and with her husband standing beside her, the young woman told her story.

"A gray haired man rang the door bell Tuesday afternoon, just before dinner. He told me a story about some elderly woman having been seriously hurt in an automobile collision over on Hollywood boulevard."

"I was expecting my husband's mother for dinner, so I left the baby with a neighbor and hurried out to the main automobile at the curb."

"The man with me was Floyd Carr. He helped me into the machine, and a man at the wheel, who, I learned later that night, was 'Jack' Carr, drove rapidly ahead. We turned into Sunset

REWARD!

\$20,200.00 IN CASH

To the People of Chicago:

As announced in last Sunday's Chicago Tribune, search is being made for the most beautiful girl in this territory. The Chicago Tribune will pay \$100,000.00 in cash to the girl as announced. Also, \$100,000.00 in cash will be paid to 60 other girls. Everyone is invited to join in the search.

IS SHE IN CHICAGO?

Can you help find the girl? Fame and fortune await her. All that is necessary is to select a photograph of any girl you think beautiful, mark on the back of it the name, address and occupation and send it to "Beauty Contest," The Chicago Tribune, 7 S. Dearborn St., Chicago. Then see next Sunday's Chicago Tribune for further details.

Leaving off of our street, and the automobile raced towards today's city. I wondered at the driver's speed, and something in their attitude caused me to worry. Then I remembered that we were not going anywhere near the place he said the accident occurred.

"I thought you said she was on Hollywood boulevard," I asked Floyd. "You misunderstood me," he replied nervously. "I'll take you there."

"Then I thought of getting out of the car. I asked him to stop the machine, but he said loudly to the driver, 'Let's go!' And I knew something was wrong."

"While I tried to occupy my companion's mind with conversation about the accident I was figuring on some way to get away without having to leap out of the speeding automobile. I asked him what was the make of the car in which the woman had been hurt."

"A black sedan," he replied. "I knew he was lying, because I know no one who owns a black sedan. I became very frightened."

"The car slowed down a little as we turned another corner and I suddenly caught the driver's eye. He looked at me instantly and we felt to the floor of the automobile as we struggled."

"Floyd got his hands on my throat. I scratched at him and tried to tear his fingers loose. But he was too strong. I felt myself weakening, and tried to scream."

"But he choked me slowly, and I lost consciousness. I guess, because when next I remember anything we were out of the city limits and I was half lying on the seat, with Floyd Carr sitting there holding my arm."

Screamed Out "Murder."

"When I gathered my strength I jumped up and screamed 'Murder! Murder!' Then I grasped the rule rail on the back of the driver's seat and tried to leap out of the car."

"Here we go again," said Floyd. "And he grabbed me by the shoulder and jerked me back on the seat."

"We kept on racing into the darkness. Away down the road I saw the lights of a farmhouse. I made up my mind to try to get away when we reached it. In a few moments we sped past the barns."

"Help, help!" I screamed again and again. "Help me, somebody!"

"Then I lunged toward the side of the car, this time determined to cast myself out on the road, no matter what happened."

"Carr swore violently and caught me just in time to prevent my going out head first."

"Damn it, you will keep still this time," he cried.

"Then he took a little bottle out of his coat pocket, dampened the handkerchief, and thrust it against my face. It was chloroform. I knew, but, struggling and fighting as I might, I couldn't stop him."

"We stopped about 3 o'clock in the morning. I heard Floyd tell his cousin, as I came out from under the influence of the chloroform. I had lost my

THUNDERBOLTS OF VOLIVA IN N. Y. ARE DUDS SO FAR

Women Find Gotham Is a Right Nice Place.

New York, Jan. 31.—[Special.]—They've been in naughty New York four days, and they—Voliva's mission—find it's "a nice place, no worse than any of the rest."

But they confessed to THE CHICAGO TRIBUNE's correspondent they haven't gone slumming or into the movies or the cabarets and they've retired when most of the big city is just getting its breath after a day's work, preparatory to another night.

They are none other than Miss Helen Buhmann and Miss Belle Schellhorn. They are the Voliva's mission—guard and plan to stay here until about July 1, returning to Zion City for the annual feast of tabernacles, July 19 to 21.

Receive the Scribe.

In their room on the second floor of a house on Forty-fifth street this evening they consented to talk.

"No better, no worse, New York is a nice place and no worse than the rest," Miss Schellhorn said. "Women don't dress decent nowadays. We are used to live and look and act like Christians; we aren't perfect, but we are trying."

"But have you seen the cabarets the dance halls, the cafes?" the interviewer began.

"No."

"Perfectly safe and sane and all that, and if you'll permit I'll take you around the bright lights," the interviewer apologized.

"Thank you, but we will see enough," Miss Schellhorn smiled.

Their dress is not friskish, nor have they attempted to storm the Broadway theater zone or hold any street corner meetings. They've been held up in the work since their quiet entry to New York last Friday by the failure of Voliva's aids or the postoffice department to deliver a load of literature—the "messages."

Some came today, and they went out for a while and got a right nice reception "at so much a copy."

Hope Sales'll Pick Up.

Tomorrow, after the flash of photographs clear and the interviews appear, the sale of "messages" will pick up, very probably. They'll start out Tuesday to Wall street.

Chances are the rest of New York—theatrical, movies, cafes, and others—will breathe a sigh tomorrow after they read that the Voliva missionaries think New York is a "nice place," even though they haven't been much around Broadway.

WASHINGTON NEWS

—IN BRIEF—

[BY A STAFF CORRESPONDENT.]

WASHINGTON, D. C., Jan. 31.—The Supreme court, in an opinion by six justices, decided that Judge Landis should not have presided at the trial of Victor Berger, convicted of disloyalty, because of the charge that the judge was prejudiced against Germans.

Woolen manufacturers told the house ways and means committee that they have no hope of extending foreign trade and need protection in order to keep domestic markets.

Representative Fear of Wisconsin declared that the excess profits tax should not be repealed unless some form of corporation tax is substituted for it. He opposed a sales tax.

The state department remained silent today about its negotiations with Japan, despite renewed demands from Senator Johnson for publicity of details of the proposed agreement.

The best posted authorities here on war reparations declared today that the reparations settlement agreed upon by the allied powers is bound to fail because it is impossible.

WILSON REFUSES TO FREE DEBS; FEARS EXAMPLE

Believes Others Would Oppose War Duty.

Washington, D. C., Jan. 31.—Recommendations by the department of justice that the ten year sentence of Eugene V. Debs, which he is serving at Atlanta, Ga., for violation of the wartime espionage laws, be commuted, effective Feb. 12 next, were rejected today by President Wilson and commutation refused.

The decision of the president came as no surprise because of his previous refusal to intervene on the ground that Debs had sought to handicap the selective service act during the war, and that the granting of clemency in this case might induce similar tactics on the part of others in the event of another war.

Rejection Comes Promptly. Announcement of the president's decision was made a few hours after the recommendations of the department of justice had been submitted to him. The case was reviewed by a special board now taking up all convictions under the espionage act and its findings were endorsed by Attorney General Palmer. The findings are understood to have pointed out that Debs would be eligible for parole on Aug. 11, 1922, and that his sentence, in case of good behavior, would expire on Dec. 24, 1922. The recommendation is understood to have suggested that Debs had been adequately punished by his confinement since June 15, 1919.

HAPPY AND SILENT. Atlanta, Ga., Jan. 31.—Eugene V. Debs in the federal prison here expressed great pleasure today on receiving the news of the decision of the United States Supreme court in the case of Victor L. Berger and four other socialist leaders, but declined to make any comment on President Wilson's refusal to commute his sentence. Discussing the decision Debs said in a statement that "the reversal will have a wholesome effect throughout the country."

"I didn't see how anything else could happen when the Supreme court reviewed all the facts in the case," the statement continued. "Mr. Berger and his friends should never have been found guilty in the first place."

SOCIALISTS PROTEST

The Socialist party, through its national organization in Chicago, yesterday issued a statement on President Wilson's refusal to pardon Eugene V. Debs and also on the Supreme court decision in the Berger case.

"The prosecution of Debs and the other espionage cases," said the statement, "were political trials and the men are being punished for political opposition to the dominant political party and for no other offense."

The statement asserted that President Wilson had "refused to recognize the fact that the hysteria of the period is over and that savage punishment for political heresy is out of date."

\$500 FINE FOR LINDSEY STANDS SUPREME COURT

Washington, D. C., Jan. 31.—The appeal of Judge Ben R. Lindsey of the Denver, Colo., juvenile court from conviction on charges of contempt of court, was dismissed today by the Supreme court.

Judge Doesn't Weaken. Denver, Colo., Jan. 31.—Judge Lindsey, informed of the Supreme court's action, said:

"I'd rather go to jail than betray the confidence of a child."

Judge Lindsey's conviction, which resulted in a fine of \$500, grew out of his refusal to divulge to the district attorney confidences made to him by Neil Wright, one of his charges, who was accused of complicity in the murder of a farmer. Judge Lindsey maintained that the communication was made to him in his official capacity.

REWARD! \$20,000.00 IN CASH

To the People of Chicago: As announced in last Sunday's Chicago Tribune, search is being made for the most beautiful girl in this territory. The Chicago Tribune will pay \$10,000.00 in cash to the girl as announced. Also \$10,000.00 in cash will be paid to 60 other girls. Everyone is invited to join in the search.

SUPREME COURT UPHOLDS BERGER AGAINST LANDIS

Says Another Judge Should Have Acted.

(Continued from first page.)

based on facts. To this the court replied that if the affidavit were false the Socialists were subject to prosecution for perjury.

In the majority opinion, which dealt almost exclusively with the legal technicalities involved, the court said: "We are of opinion that an affidavit upon information and belief satisfies the section, and that upon its filing it shows the objectionable inclination or disposition of the judge, which we have said is an essential condition, it is his duty to 'proceed no further' in the case."

Just Not Concerned. "And in this there is no serious detriment to the administration of justice nor inconvenience worthy of mention for of what concern is it to a judge to preside in a particular case; of what concern to other parties to have him so preside, and any serious delay of trial is avoided by the requirement that the affidavit must be filed not less than ten days before the commencement of the trial."

Can Hate and Do Justice. Justice McReynolds, in vigorous language, took issue with the majority. "I am unable to follow the reasoning of the opinion approved by the ma-

jority or to feel fairly certain of its scope and consequence," he said. "Of course, no judge should preside if he entertains actual personal prejudice toward any party. Intense dislike of a class does not render the judge incapable of administering complete justice to one of its members. A public officer who entertained no aversion toward disloyal German immigrants during the late war was simply unfit for his place. And, while 'an over-speaking judge is no well tuned cymbal,' neither is an amorphous dummy unspotted by human emotions a becoming receptacle for judicial power."

Finds No Prejudice. Justice Day's dissenting opinion, in which Justice Pitney concurred, contains the following comment on Judge Landis' language in sentencing August Weissensel on Nov. 1, 1918:

"The judge, in speaking of the convicted defendant, said he was of the type of man who branded almost the whole German-American population, and that one German-American such as the defendant talking such stuff did more damage to his people than thousands of them could overcome by being good and loyal citizens; and that he, the defendant, was an illustration of the occasional American of German birth whose conduct had done so much to damn the whole 10,000,000 in America."

"There is nothing in this language fairly establishing that the judge directed his observations to the German people in general. It does not appear that the judge had any such bias or prejudice as would prevent him from fairly conducting the trial."

What Affidavit Charged. In their affidavit of objection the defendants stated that Germer was born in Prussia, Berger in Austria, and Kruse of immediate German extraction.

In support of their charge that Judge Landis was prejudiced against them because of their nativity, they quoted him as saying, in substance, Nov. 1:

"If anybody has said anything worse about the Germans than I have, I would like to know it, so I can use it." The affidavit also alleged that, referring to a German charged with stating that "Germany had money and plenty of men, and wait and see what she is going to do to the United States," Judge Landis said, in substance:

"One must have a very judicial mind indeed not to be prejudiced against the German-Americans in this country. Their hearts are reeking with disloyalty. This defendant is the kind of a man that spreads this kind of propaganda, and it has been spread until it has affected practically all the Germans in this country."

Prefers a Safeblower. "This same kind of excuse, of the defendant offering to protect the German people, is the same kind of excuse offered by the pacifists in this country, who are against the United States and have the interests of the enemy at heart by defending that thing they call the Kaiser and his darling people."

"I know a safeblower—he is a friend of mine—who is making a good soldier in France. He was a bank robber for nine years—that was his business in peace times—and now he is a good soldier, and as between him and this defendant, I prefer the safeblower."

Fur Prices Cut in Half at Auction in Montreal. Montreal, Jan. 31.—At the opening of a four day auction sale in furs here today marten brought from \$6.50 to \$7.35, whereas last year's highest price was \$20.1 and the lowest \$35. Fisher furs sold from \$13 to \$125, compared with last year's price of \$75 to \$350.

RULERS' REASON RETURNS, BERGER SAYS OF VICTORY

Milwaukee, Wis., Jan. 31.—"The conspiracy has failed and I have nothing to retract from anything I have written or said about the war or about those who pushed us into this war," declared Victor L. Berger today when apprised by the Associated Press of the decision of the United States Supreme court in its reversal of the decision in the case against Berger, who was tried before Judge Landis of Chicago on charges of violating the wartime espionage act.

"In view of the plain wording of the federal statute of 1913, compelling a federal judge to give way to another judge whenever a sworn affidavit of prejudice is filed, and also because of Judge Landis' public utterances about German-Americans, Socialist, and radical—before and after the trial—the decision of the Supreme court could not be any different and stand the light of reason," says the statement issued by Mr. Berger.

"Sign of Returning Sanity." "Still, I hail this decision as the first real sign of returning sanity in our ruling class."

"As a matter of fact, the Chicago trial was simply a conspiracy of the 'payriters' and the profiteers against the Socialist party. I was picked out as the one member of the national executive committee who was of German extraction and because the

Socialist party is strong in Milwaukee and, furthermore, because I dared to be a candidate for the United States senate against Woodrow Wilson's favorite."

"If what I said or wrote was error, citizens holding contrary opinions had an equal right to speak and publish their opinions, so that the public might hear both sides. Neither I nor my opponents had a moral or a constitutional right to suppress the free utterance of any citizen's opinions with regard to governmental acts and politics which vitally affected the welfare of all citizens."

"As to my patriotism? Well, I have proven my love for this, my country, by a life of labor in it and for it; by striving constantly with all my energy to improve the condition of my fellow men."

PLANS FOR NEW TRIAL. Assistant District Attorney James R. Glass in the absence of District Attorney Clyne last night said preparations for the prosecution of the second trial for Berger would start immediately.

"Our future action of course will depend on the report sent down to the District court by the Court of Appeals here," he said.

Socialists at the Chicago headquarters were jubilant last night at the Berger decision.

"Steps will immediately be taken to secure funds for the second trial," J. Louis Engdahl said.

WALLER \$125,000 GOES TO CHARITY, EDUCATION, ART

More than \$125,000 is bequeathed to charitable, religious, and educational institutions by the will of Mrs. Lina A. Waller, widow of Robert A. Waller, former city controller. The will, filed in the Probate court yesterday, values the estate at \$500,000.

The bequests include gifts of \$25,000 each to the Visiting Nurses' Association of Chicago, the King's Daughters of Frankfort, Ky., and the Children's Memorial hospital; \$20,000 to the United Charities; \$10,000 to the Art Institute and to Washington and Lee university, and gifts of \$5,000 to Buena Memorial Presbyterian church, the Yale scholarship fund, the First Presbyterian church of Frankfort, Ky., and the board of education of the Chicago schools. The last bequest is made for the purpose of enabling the board to purchase a library for the Robert A. Waller High school.

The residuary estate, valued at approximately \$250,000, according to the law firm of Whitman & Miller, will be distributed among Mrs. Waller's relatives. Numerous bequests also are made to friends. The residuary estate includes the Waller residence at 139 Lake Shore drive.

HESS FURNACES

DID YOU KNOW that soft coal has as many heat units per ton and as much actual heating power as hard coal? It's a fact, but ordinary methods of burning lose much of that heat in smoke and soot. The Hess Furnace is different. It burns the coal clean, no matter how poor, and saves the heat. Ask your coal dealer for our card telling how to burn soft coal.

KNOW YOUR CHICAGO

TRAVELERS from other cities and countries are apt to be more aware of Chicago's greatness than some of those who have helped to make it—a fact of which we in this Store have frequent evidence.

The world's greatest Store is a matter of course to Chicagoans—it is a matter of wonder to visitors. For instance:

There are Chicagoans who still think first of New York, Paris and London when important jewel purchases are considered.

This is natural, perhaps, because it once expressed a condition. But in the jewel markets of the world this jewelry Store and its workshops are now recognized as one of the few establishments of international prestige and importance.

NEW MAYOR OF DUBLIN IS NOT A SINN FEINER

BULLETIN.

DUBLIN, Jan. 31.—A lorry full of auxiliaries was fired on in North Earl street this evening and a cadet and a boy and a girl were wounded. The shots came from the street and from doorways.

DUBLIN, Jan. 31.—Laurence O'Neill was today elected lord mayor of Dublin for the fourth consecutive time. Although not a Sinn Feiner, he was proposed by Sinn Feiners and in giving thanks for his election he said that as mayor he would be advised by those chosen by the vast majority of Irish people as their political representative.

Mr. Gosgrove declined the mayoralty on the ground that as a hunted

man he would be unable to perform the duties of office.

Trick House Hides Arms.

An official statement regarding the destruction of Cullinstown house, issued this afternoon, says that the military discovered false walls and doors and a wardrobe arrangement operated by a spring, disclosing a secret office. "There were nine rooms, mostly of secret construction, giving access to the adjacent fields," says the statement. "Inside a dummy wall revolver ammunition was found. Previous raids disclosed that the premises were used for unlawful associations."

FREE COL. MOORE

BY JOHN LESTER.

[Chicago Tribune Foreign News Service.] [Copyright, 1921: By The Chicago Tribune.]

DUBLIN, Jan. 31.—Col. Maurice Moore, who commanded the Connaught Rangers in the South African war, who was arrested by the military at his home in Dublin, was released today.

In recent years the colonel has taken an active interest in the nationalist movement, and was connected with the nationalist volunteers in the early days of the war. He is a brother of George Moore, the famous novelist. Lord Dunsany will be court-mar-

shaled this week charged with alleged illegal possession of ammunition.

Unable to Stop Execution.

The King's bench today unanimously decided that they were powerless to stop the execution of Joseph Murphy, condemned to hang in Cork jail. But the bench held that the court-martial had erred in barring the examination of military witnesses on testimony previously given, and recommended that Murphy be given an opportunity to make further application under the army act, and that a reasonable time be granted for this purpose. Murphy's execution, at present, is fixed for tomorrow morning.

When the congregation was leaving the Catholic cathedral in Dublin last night a half dozen shots were fired by auxiliary police. Thomas Ivory, aged 18, who was standing near the cathedral steps, was shot through the brain and instantly killed.

Peace Signs in Dublin.

In spite of the speeding up of the Irish "war," which is now the most apparent fact on the surface of the

Irish situation, there is a distinct atmosphere of peace in Dublin today.

Both sides admit that there is "something doing," but so far it has not gone beyond the stage of an exchange of public statements.

The Irish government has just received some remarkable estimates on the growth of population and business in Ireland in spite of the great war and the many casualties in the little Irish "war."

The population increase in 1920 over 1919 is nearly 70,000, and last year the birth rate was higher and the death rate lower than the year before. Both exports and imports show substantial increases. All Irish bank reports show one of the most prosperous years on record.

BURN STORES IN REPRISAL.

CORK, Jan. 31.—Several stores in Williamstown were burned by soldiers on Saturday in reprisal, it is declared, for Friday's ambush near Castle island, County Kerry. It was in this ambush that Divisional Commissioner Holmes received injuries which brought about

his death and in which five constables were wounded.

The Cork corporation today reflected Donal O'Callaghan lord mayor. (Lord Mayor O'Callaghan is at present in the United States.) Towards the close of the meeting a police force arrived and arrested three of the soldiers and seven councillors, taking them away to the barracks. The prisoners indulged in good humored songs on the way.

U. S. Policy on Ireland

Vague, Roseberry Says

LONDON, Jan. 31.—Lord Roseberry, writing for the London Times, says:

"The Americans are very free with their criticisms of our Irish government, but one is curious to know what their plan would be. An extreme party is endeavoring to set up a hostile state in Ireland. What was done in the United States when the southerners wished to do the same thing? But we have no other clue to their Irish policy, and that obviously is no precedent."

SLIGHT GAIN IN FLAT BUILDING PERMITS SHOWN

Thirteen permits for the construction of apartment buildings—double the number issued during the same months a year ago—were issued during the month just closed by Commissioner of Buildings Rostrom.

Though the figures on permits for apartment buildings bear a slight rift in the gloom sky of the high rent for which permits were issued in January is only \$1,117,000, counting in a \$1,000,000 apartment building, as compared to \$5,305,000 in December, and \$7,482,000 in January a year ago.

The permit for the \$1,000,000 apartment building was taken out by Gustave M. Posner, head of G. M. Posner & Co. builders. It is to be nine stories high and is to be erected at Sheridan road and Pratt boulevard. It will contain, in addition to a spacious hall, room and dining room, 168 apartments of one, two, three, and four rooms each. These will all be furnished.

The total investment, including land, building, and equipment, will be more than \$2,000,000. Mr. Posner hopes to have the building, which will be known as the Rogers Park apartments, and will be under the management of J. J. Kohn, ready for occupancy late in the fall. Work is to begin immediately.

The lugubrious figures on the building situation, summarized from Mr. Rostrom's monthly report and compared with those of last month and a year ago, follow:

	Jan. 21	Dec. 20	Jan. 20
Permits	13	80	194
Value	1,117,000	5,305,000	11,004,000
Value	1,117,000	5,305,000	11,004,000
Value	1,117,000	5,305,000	11,004,000
Value	1,117,000	5,305,000	11,004,000
Value	1,117,000	5,305,000	11,004,000
Value	1,117,000	5,305,000	11,004,000
Value	1,117,000	5,305,000	11,004,000
Value	1,117,000	5,305,000	11,004,000
Value	1,117,000	5,305,000	11,004,000

The decrease in the amount of frontage involved was declared at the commissioner's office to be "exceedingly depressing."

WHY "L" WAS TIED UP 4 HOURS

Elevated tracks near Fullerton avenue, showing how southbound train was derailed on local tracks and how big force of men worked strenuously to end four-hour tieup while passengers watched. None was injured. (TRIBUNE Photo.)

GOTHAM SHOPS, CROWDS, FAIL TO SEE MRS. HARDING

New York, Jan. 31.—Mrs. Warren G. Harding, wife of the president elect, enjoyed an uninterrupted rest today. She did not leave her room, disappointing the curious who stood in the lobby throughout the day hoping to catch a glimpse of her.

Fifth avenue's fashionable shops were gay with throngs who braved a snowstorm in the hope of seeing Mrs. Harding. Failing, they fastened their eyes upon the special displays which the long line of stores had arranged for the eyes of the distinguished visitor. The secret service man cheered the crowd in the lobby when he announced to newspaper men that Mrs. Harding would appear at 10 o'clock tomorrow morning and probably would spend five or six days seeing the stores.

DERAILED

SOUTHBOUND service on the local tracks of the north branch of the elevated lines was tied up for four hours yesterday afternoon following the derailment of a passenger train just south of the Fullerton avenue station at 12:20 p. m. The train was derailed while running on the local tracks. No one was injured. Officials of the elevated lines succeeded in clearing the tracks before 5 o'clock.

Lawyer Accused of Trying to Bribe Prohibition Agent

Cleveland, O., Jan. 31.—Samuel F. Bismarck, Cleveland attorney, was indicted by the federal grand jury today on a charge of offering a \$4,000 bribe to Prohibition Commissioner Fred Counts in connection with liquor shipments from Lexington, Ky.

FIVE BITTEN BY MAD DOG TAKE PASTEUR SERUM

Five residents of the northwest side began taking the Pasteur treatment at the Iroquois hospital yesterday following the discovery of "Nigri bodies" in the brain and spinal column of a cur dog killed Saturday by the police of the Shakespeare avenue station.

The "Nigri bodies," proof that the dog was suffering from rabies, were plentiful, according to Dr. F. O. Toney, head of the city health department laboratories.

The five victims are John and Julia Kenka, 3025 North Whipple street; W. Lichaski, 2956 North Spaulding avenue; Stanley Matary, 3121 North Sawyer avenue; and Victor Pallash, 3130 North Kedzie avenue.

A Vital Need for Fresh Air

In countless schools, the Prairie Window Ventilator is solving the fresh air problem. Plenty of air is provided, but without drafts. Scientifically constructed in metal, this practical window ventilator forces the incoming air up to the ceiling, and entirely eliminates the possibility of a direct current of air even a few inches in front of the opening.

Leading drug, hardware, stationery, office supply and department stores sell the Prairie. If you experience any delay in having orders filled, write or phone us.

An Interesting Display

"Bridal" Cretonnes

AS if to emphasize the fact that all Drapery Workroom orders this month are taken at reduced prices, there is a new and beautiful display on the Fifth Floor of "Bridal" Cretonnes, the newest Colonial Drapery Fabric design.

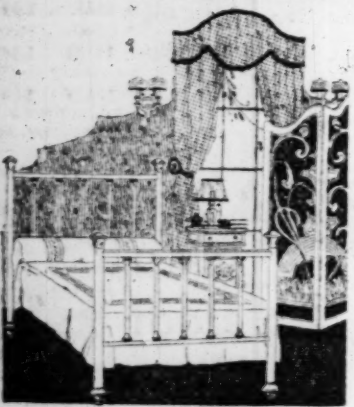

It shows a series of eight dainty designs, each in a number of tasteful color schemes.

This particular series, though its lighter colorings make it especially appropriate for boudoirs and sunparlors, is nevertheless also suitable for a study, as well as for other rooms.

Fifth Floor, Wabash Avenue.

Beds and Bedding in February Sale

UNUSUAL preparations have been made in these Sections for this semi-annual event. Practically every article in Beds, Springs, Mattresses and Pillows has been reduced in price to such an extent that very remarkable savings are easily apparent.

11 Electric Ranges, in 6 styles.

Household Utilities, Ninth Floor.

The Sale of Dinnerware

THIS year the China market is in opposition to the day's tendency—manufacturers are advancing their prices!

This fact, and the remarkable number and fine character of the Sets we are offering, make this year's Sale memorable.

Over 3,000 Sets will be found, most of them from orders placed two or three years ago, when prices were not so high.

There are three groups in this Sale: 32-piece Sets, from \$6.75 to \$16.50; Services for six people, from \$15 to \$35; and Services for twelve, \$19.75 to \$400 the set. Both American and imported wares are included in a remarkable assemblage of patterns, colors, weights, and shapes.

Second Floor, Wabash Avenue.

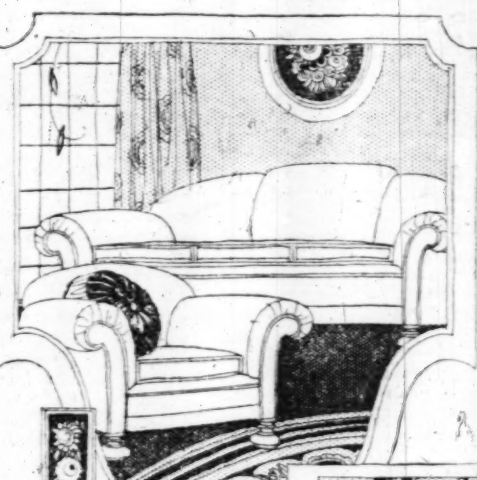

ALL OF OUR tremendous stock of Furniture—for every room in the house—to meet all ideas in design, proportion and price—is marked at Sale prices. Many pieces and suites are fresh from the manufacturer.

The price reductions are radical—in every case considerably more than is warranted by the state of the market. This should reassure those who have been waiting for lower prices.

The Marshall Field & Company tradition of "Quality First" has been upheld this year as in the past.

Every Piece of Furniture Reduced in These Stocks—

1,500 CUT OFF PAY ROLL OF C., B. & Q.; "POOR BUSINESS"

Yesterday was a blue pay day for many employees of the Chicago, Burlington and Quincy railroad.

When the pay envelopes were passed out "blue tickets" estimated at between 1,500 and 2,000 were distributed among employees scattered over the lines of the Burlington. The "blue tickets" meant that the recipients joined the army of unemployed until "business picks up."

"It is not a sweeping out," Hale Holden, president of the railroad, explained. "It is merely a continuation of the policy of retrenchment we have been forced to adopt. We have been consistently reducing our force for the last several weeks—how many men have been laid off I can't say until I get all the reports from the various departments."

"Cut to the Bone."

There has been no order from this office to cut forces any certain percentage. Department heads have been told they must cut to the bone as fast as they can. The cutting will continue if business keeps on the down grade.

"We can't keep men on the pay roll if we have nothing for them to do—nor can we keep them on unless we can get the money to pay them."

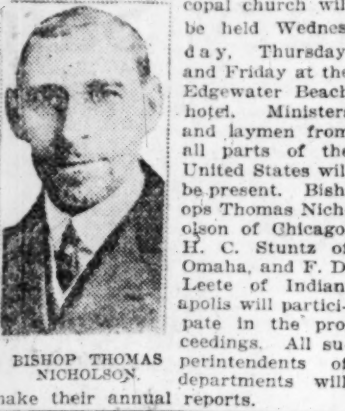

"The minimum force necessary to insure safety of operation is not warranted by the standards of any business except the railroad business, but in railroad there is of course a minimum beyond which reduction cannot be made. And with the present state of railroad revenue the roads are hard put to it to scrape up the money to meet the pay roll of the indispensable force."

Other Roads Also Reduce.

A checkup of other railroads revealed that while the Burlington made the heaviest cut of the day, from ten to a hundred names had been cut off every railroad pay roll in the city. "No business" was the reason given in each case.

3 of Every 4 Women Smoke Now, Miss Gaston Says Two of Six Girl Fugitives Are Trained to Hammond

Cigaret smoking among women has increased 50 to 75 per cent in the last year, Miss Lucy Page Gaston says. Mothers are smoking at their bridge parties as never before. High school girls are forming the habit along with their jazz dancing at what used to be termed "sweet sixteen" and, worst of all, young married women are smoking "most promiscuously," she says. "If women knew cigarette smoking destroys beauty they would quit," she declared.

Search for the six girls who escaped Sunday from the Chicago Home for Girls at 5024 Indiana avenue centered yesterday in Hammond, Ind., following a report that two of them had been seen at the Orpheum theater there on Sunday evening. Bertha Vandehoe, 15, and Mary L. Lawson, 16, are the girls said to have been seen in the Indiana city. Mrs. Mary L. Stewart, superintendent of the home, said she had not heard of any other clues.

Miss Dutton Invites You Today

To a special luncheon specially prepared for those who appreciate home cooked foods.

Fricassee of chicken—served with feathery hot biscuit and plenty of real chicken gravy—the kind you used to have for Sunday dinner when you were a youngster. Remember how good it used to taste?

Miss Dutton remembers, too, and she has found women who can cook chicken and bake biscuit just like mother used to, and she wants you to come today and find out just how good chicken and hot biscuit can be.

And to go with the chicken and biscuits you'll find baked Idaho potatoes, mealy and piping hot, crisp head lettuce salad with Thousand Island or French Dressing, real coffee with rich cream, and every delicious dessert you can possibly think of!

Doesn't it make you hungry just to read about it?

You'd be even hungrier if you could see the quality of every bit of food that is bought for the Ontras, and the immaculate cleanliness of the kitchens, the dishes, the linen, as well as the people who prepare and serve the food.

That's why Miss Dutton has women managers, and women to do the cooking and serving—because women realize the necessity of quality and absolute cleanliness where food is concerned.

Don't fail to come this noon for that chicken and hot biscuit luncheon, but if anything should happen to prevent, remember you'll have another chance tonight. Miss Dutton, you know, serves all three meals—breakfast, luncheon and dinner—but you'll hear more about that later. Don't forget the luncheon today!

Vocalion Records for February

A TOUCH of that divine art that alone is Rosa Raisa's, world-famed dramatic soprano of the Chicago Opera Association, is imparted to her latest Vocalion recording of Verdi's "Vespre Siciliana" aria.

THE sinister dignity of the "Credo" from "Otello" is made vividly real by Giacomo Rimini, noted operatic baritone.

A WONDERFUL tone-picture has Maurice Dambois, the gifted Belgian 'Cellist, made of his new Vocalion Record of Saint-Saens' "The Swan."

HIGH-LIGHTS in the popular tunes are both song and dance records of that tantalizing tune, "Margie," "Snap Your Fingers at Care," "Beautiful Annabel Lee" and "Broadway Rose."

RAILWAY LABOR TAKES ITS WAGE FIGHT TO WILSON

(Continued from first page.)

concerns controlled by them for the repairs of hundreds of locomotives and tens of thousands of freight cars at excessive prices.

"That in the above outlined practices they have conspired to inflate the cost of railroad operation, to destroy the morale of railway employees to disrupt legitimate organizations of their employees, and especially to charge all the consequent disorganization and lack of economy to governmental policies inaugurated under your administration, thereby aiming to secure opportunity for further exploitation."

The telegram asks President Wilson to take immediate steps to have all the evidence in the case presented to the interstate commerce commission, and says that the union representatives were calling his attention to the matter only because "no stone should be left unturned to prevent such a catastrophe as outlined by Gen. Atterbury."

The telegram was signed by B. M. Jewell, president of the railway employees' department of the American Federation of Labor; J. J. Hyman, international president of the Amalgamated Sheet Metal Workers' International Alliance; Martin F. Ryan, general president of the Brotherhood of Railway Car Men of America; James P. Noonan, international president of the International Brotherhood of Electrical Workers; J. W. Kline, president of the International Brotherhood of Blacksmiths; Drop Forgers and Heaters of America; J. A. Franklin, president of the International Brotherhood of Hollemakers, Iron Ship Builders and Helpers of America; and J. F. Anderson, vice president of the International Association of Machinists.

Decision Due This Week.

The outlook last night was that Mr. Jewell will have his formal reply ready for the labor board today or

tomorrow. Then the board will consider the request of the roads for immediate abrogation of the agreements in executive session. A decision is looked for before the end of the week.

The session was droning along when, just before adjournment, a diversion was caused by J. G. Lührsen, president of the American Train Dispatchers' association. He arose with a vigorous protest against the action asked by the railroad.

Mr. Lührsen had just shot off a telegram to Senator Miles Poindexter, urging that a congressional committee be created at once "to investigate the allegations of the carriers that they are facing bankruptcy, which we believe will result in a disclosure that the representations of the carriers are deceptive."

\$300,000,000 Waste?

Gen. Atterbury had declared that abrogation of the "national working agreements" would eliminate from operating expenses about \$300,000,000 of waste. Mr. Lührsen maintained that the roads could save more than \$300,000,000 of waste if management did a better job in operating the lines.

"Close analysis of the operating records of the carriers," he said, "and

particularly train sheets, will disclose operating inefficiency which, if rectified, will produce a saving greatly exceeding the waste of \$300,000,000 alleged by Gen. Atterbury as the result of national agreements."

Mr. Lührsen argued that the representations of the carriers that they wanted to reopen negotiations on working conditions with their own employees were "false, misleading, and without merit." He said the Pennsylvania road itself has ignored all requests of the dispatchers for conferences.

Right there crops up one argument, railroad labor, at least part of it, is preparing to advance, namely, that the roads now in many instances have been quite as arbitrary in their treatment of employees as were the workers in their treatment of the carriers when labor was riding high in the saddle.

Work Seven Days, They Say.

The telegraphers declare that under the rules promulgated during federal control they were given one day's rest in seven, something they had been seeking for thirty years. They declare that without consulting the employees some of the roads are now putting the telegraphers back to a seven day week. Mr. Lührsen says this is the case on

the Erie, the Big Four, the Cotton Belt, the Georgia and Florida, the Fort Dodge roads, and some others.

In addition, he cites instances where under changed rules telegraphers are now required to work seven days a week at six days' pay. This phase of labor's reply was indicated after the session closed.

Gen. Atterbury's presentation of the request was followed by suggestions from Judge R. M. Barton, chairman of the labor board, and Henry T. Hunt of Cincinnati, representative of the public, that the entire situation might be straightened out by conferences between the carriers and their employees.

Can't Get Together, Roads Feel.

"So far as the railroads are concerned," said Gen. Atterbury, "we feel that we cannot get together. The views of the two sides are so radically opposed that no good could come from such a conference."

"It is a difficult situation," Judge Barton said. "Representatives of the railroads and of the employees ought to unite, not work in a spirit of antagonism. Personally I feel that the roads and the men ought to see if something can be done first. Gen. Atterbury, by a few days' conference, cannot the

railroad men get together with the employees?"

"The situation," replied Gen. Atterbury, "is so critical that even a few days' delay may result in flooding your board with petitions for reductions of wages. The board has before it a mass of information; it can act if it will."

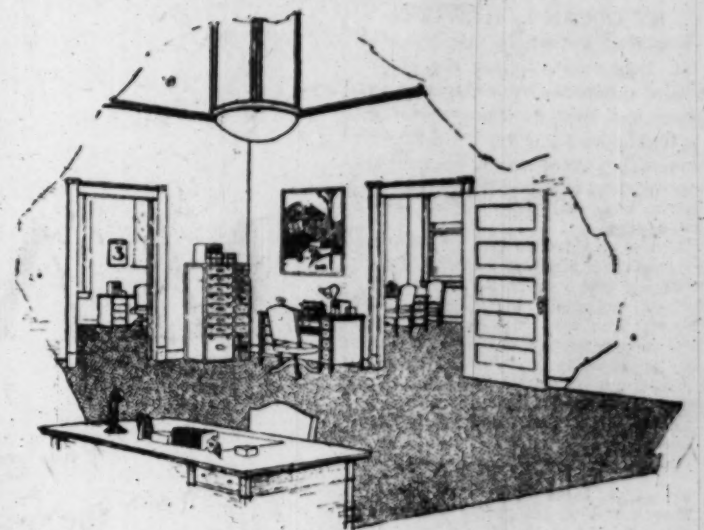

Judge Barton, in answer to a question from Mr. Jewell, said the board would not act on the proposal until the employees had been heard.

Gen. Atterbury said unless prompt action is taken, many lines may be forced into bankruptcy.

"The urgent financial necessities of the railroads will not permit them to wait any such length of time for relief. Long before the present detailed hearings are concluded the board will be flooded by appeals from individual railroads from all parts of the country for reductions in basic wages. It will be impossible for the board to hear and dispose of these separate cases upon their merits in time to avoid numerous receiverships and the possibility of a national panic. Losses of railway net operating income are irreparable. You cannot make retroactive tomorrow the savings that should have been made today."

EXPERTS TO GET \$2,210,000; VOTE NEW BOND ISSUE

BY OSCAR E. HEWITT.

President Faherty of the board of local improvements told the council finance committee yesterday that real estate and building experts will get approximately \$2,210,000 of the \$25,000,000 in bonds voted Nov. 4, 1919, for the improvement of Western, Ashland and Ogden avenues, Robey and South Water streets.

Controller Harding told the committee that two building experts, Frank F. Mesco and Austin J. Lynch, have already collected \$1,004,586.84; and Faherty said that real estate experts have already earned \$670,000, for which they presumably have billed the city and perhaps collected. On these same improvements still more cash will be spent for legal, rent, engineering and other experts.

Vote Vast Water Program.

Soon after these disclosures, the committee voted to recommend extensions to the water system by means of water certificates, which will total \$11,000,000 in 1925. Roughly speaking these are bonds against the water system, which can be issued without submitting the question to the voters for approval. However, they are part of the city's constitutional debts.

Ten days ago the council itself submitted a bond issue of \$8,000,000 to be voted by the electorate Feb. 22. This money is desired to pay the city's floating indebtedness.

These proposed debts will eat a big hole in the city's bonding power, which Controller Harding told the committee now totals \$82,740,741. The constitutional debt of the city consists of judgments and bonds and water certificates issued and sold. These totaled yesterday \$7,526,590.

The difference between the two—\$25,214,161—represent the unused bonding power of the city. But the city has \$20,849,209 in bonds which have been authorized but have not been sold. If these were sold the city would have only a margin of \$4,364,961 in borrowing power.

Plans for This Year.

The plan is to issue this year \$8,000,000 in bonds for floating indebtedness and upwards of \$2,000,000 in water certificates. To that extent previously authorized bonds cannot be sold. In this class of bonds are large sums—estimated at \$15,000,000—for street improvements. Consequently aldermen fear that street improvements will be held up if the \$8,000,000 in bonds and the proposed water certificates are issued.

The water plant program contemplates a William Hale Thompson crib two miles out beyond the two mile crib, a William Hale Thompson pumping station on the southwest side, and new lake and several land tunnels. To pay for these it is proposed to issue water certificates so that there will be outstanding \$1,923,650 of these next year, \$4,925,633 in 1923, \$7,359,715 in 1924, and \$11,000,000 in 1925. All are to be retired in 1930 except \$258,963.

Urging Waiting for New Engineer.
These water plant plans were submitted by City Engineer P. S. Connelley, but in the recent civil service examination he was beat out by Alexander Murdock. It was suggested that the committee wait until Murdock takes over the job and advises the committee.

what he thinks of the program. Faherty also objected.
"If you fellows are going to take money away from street improvements by issuing other bonds and water certificates, I'll start out tomorrow to sell the street improvement bonds," he remarked. But all the committee voted for the water plant improvements except Ald. Wallace.
Later the committee switched to the

subject of money spent for experts. Faherty defended the experts and their pay.
"Lynch is the best building expert in the United States," he said. "Mesco is the best depreciation expert in the country."
Controller Harding's statement, together with the original vouchers, were presented to the committee.

A sandwich-bread
that's a sandwich-spread

PLAIN or buttered, Sun Sweet Prune Bread makes a "first-grade" match for any schoolboy appetite. There's a fruit-relish to it that he likes. It isn't dry or tasteless—it's juicy! And his boyish heart goes out to the really real morsels of prunes that come with each slice.

Many children do not eat enough bread—enough to meet the needs of growing bodies. They say: "It's too plain—nothing to it." What they mean is—there's nothing on it! And so you have to entice them with a spread of some sort.

Not so with this delicious fruit-bread. They like it "as is." It is bread and jam in one. You can't give them anything more to their liking—or anything that's better for them. For Sun Sweet Prune Bread gives them all the fine nutriment of the wheat—and all the rich fruit sugar and tonic iron of Sun Sweet Prunes—the finest prunes California can produce.

The Dread Pyorrhea Begins With Bleeding Gums

Pyorrhea's infecting germs cause many ills. Medical science has proven this.

Diseased conditions, which not long ago doctors were unable to trace to a cause, are now known often to be the result of Pyorrhea germs that breed in pockets about the teeth. Rheumatism, anaemia, nervous disorders and other diseases have been traced in many cases to this Pyorrhea infection.

Don't let Pyorrhea work its wicked will on your body. Visit your dentist frequently for tooth and gum inspection.

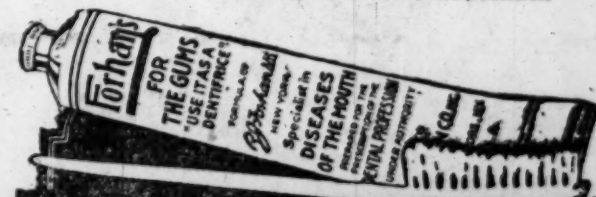

And watch your gums yourself. Pyorrhea, which afflicts four out of five people over forty, begins with tender and bleeding gums; then the gums recede, the teeth decay, loosen and fall out, or must be extracted to rid the system of poisons generated at their base.

Forhan's For the Gums will prevent Pyorrhea—or check its progress, if used in time and used consistently. Ordinary dentifrices cannot do this. Forhan's keeps the gums hard and healthy—the teeth white and clean. Start using it today. If gum-shrinkage has already set in, use Forhan's according to directions and consult a dentist immediately for special treatment.

CHEMISTS BEGIN TESTS TO FIND SPINACH POISON

Samples of the canned spinach that is said to have caused the death of four persons in Grand Rapids, Mich., last week were received by government chemists in Chicago yesterday for analysis. The tests will require three or four days, according to Dr. E. Doolittle, chief of the bureau. The meantime Chicago jobbers and the authorities are cooperating in testing all packages of the California spinach which contained the can in question, and taking them off the market.

Our investigation has not gone far enough to determine the nature of the poison which Grand Rapids authorities say caused death," said Dr. Doolittle, "and it would be highly unfair to lay the blame on the manufacturer or jobber in California or in Chicago."

How to Know Bad Cans.
Protection from impure canned food rests for the most part with the consumer. No preserved food can be impure without the container showing the fact. Usually in such case the cans will bulge at the ends. This is called "swelling" and is easily seen. Most jobbers are careful to check over shipments and throw out these "swells."

Sometimes defective packages can be picked out by leakage. If these cans fail the food itself will give warning by its odor and taste.

Kocher Canvasses Stores.
Dr. Gottfried Kocher, acting head of the Chicago health department, began a canvass of loop stores to make sure that none of the alleged defective shipments will be sold locally. In the meantime, he urged the public not to give way to panic, pointing out that billions of cans of food are sold annually in perfect condition and that the few defective serve their own warning through bulging cans and decayed labels.

The sweeping investigation into chemical developments of canned foods, launched by the National Cannery association, is going forward rapidly, according to local association members. Forty eminent scientists, including Dr. Jordan of the University of Chicago, are conducting the tests.

Government Bids on Print Paper the Lowest in Years

Washington, D. C., Jan. 31.—Several hundred thousand dollars probably will be saved next year on the government's paper bill, according to bids received today by the joint congressional printing committee for government printing office work. The bids were said to be "the lowest in several years" and competition lively. Fifty companies submitted proposals. The lowest bid on print paper was 2.3 cents per pound. Last year the committee had difficulty in getting paper at 12 to 14 cents. The committee will award contracts next Monday.

Trying to meet Chicago's Demand for

Studebaker

CARS

ENTIRE TRAINLOAD!

To take care of customers who have already placed orders and to meet immediate demand

Since the first of January our business has been so unusually good that we have found it extremely difficult to fill our orders.

Fact is, our January allotment of Studebaker Cars was inadequate to meet our requirements. Before the middle of the month we found ourselves unable to make prompt deliveries of some models. We were actually accumulating bona fide orders and asking our customers to be patient.

The rush of orders for Studebaker Cars became so great that we finally found it necessary to prevail upon the factory to ship us a trainload of automobiles as quickly as the freight cars could be loaded.

You see the result above. The special train has already left the Detroit factories and is well on the way to Chicago. The photographic reproduction of our certified check indicates the magnitude of the transaction.

To our customers who have placed their order for a Studebaker Car and are now awaiting delivery, we want to express our thanks for their patience and apologize for our inability to give them their Studebaker Car promptly. To them we say, we feel sure you will have your car this week. Upon the arrival of our trainload of automobiles, we will have a special force

of men ready to do the unloading without delay. As soon as each Studebaker can be unloaded, and prepared for delivery, purchasers will be notified and cars will be delivered as the orders were placed.

Prospective owners who may be contemplating the purchase of a Studebaker Car are urged to place their order now to make sure of prompt delivery. There is nothing to be gained by waiting.

Place your order for a Studebaker now. If this special trainload of Studebakers is insufficient to meet immediate demands—we'll try to duplicate our order and endeavor to induce the factory to rush another trainload.

Yes, this is a Studebaker year—and it is public demand that makes it so. At their present prices Studebaker Cars are the best values on the market today. We do not ask you merely to take our word for it. Just make rigid comparisons, point by point, of Studebaker Cars with other cars selling hundreds of dollars higher in price, and we will be satisfied with your judgment.

Studebaker manufactures completely in its own factories its drop forgings, castings, stampings, motors, axles, transmissions, steering gears, springs, bodies, tops, fenders, and other vital parts—thereby eliminating middlemen's profits and absolutely controlling quality.

GASOLINE DROPS 2 CTS. MORE; NOW 25 CTS. A GALLON

The price of gasoline dropped 2 cents a gallon yesterday. A similar reduction was made a week ago.

The new price cut was greeted by motorists with enthusiasm, as they believe it may mark the start of a series of reductions that may send the price of fuel oil back to something near the pre-war price, which was as low as 19 cents a gallon.

The price today is 25 cents a gallon at filling stations and 23 cents a gallon from tank wagons. Kerosene also dropped from 13 1/2 cents to 13 cents a gallon.

The Sinclair Refining company made the first announcement of the new prices yesterday morning. This announcement was followed by a similar notice from the Standard Oil Company of Indiana.

The first drop in price since the war came on Jan. 25, when gasoline was reduced from 29 to 27 cents a gallon in filling stations. At that time it was announced that a reduction in the price of crude oil from \$3.50 to \$3 per barrel caused the drop in gasoline price. Another drop of 50 cents a barrel on the price of crude went into effect yesterday.

"We did not look for this reduction this soon," an official of the Sinclair company said. "The price of crude oil makes the price of gasoline and the price of crude oil is affected by a multiplicity of things. Supply and demand, of course, is the chief basis of price. It may be that there will be another drop soon."

Telegraph reports from practically every producing field in the United States show that there is a general reduction in the prices of crude oil, and indicate a fight between several oil companies.

DEWEY SHELL, A "DUD" 22 YEARS, EXPLODES, HURTS 3

MANILA, P. I., Nov. 30.—[Correspondence of the Associated Press.]

A shell from one of Admiral Dewey's guns, after lying in a vacant lot in Manila for more than twenty-two years, exploded, injuring three Filipino boys. One of the boys picked up the shell and after examining it he hurled it against a rock. The shell proved to be effective and knocked the three boys to the ground.

ADMIRAL DEWEY.

PASTOR BALKS ON TYING BOGLE NUPTIAL KNOT

Divorce Given as Cause of Refusal.

The Rev. Malcolm Van Zandt, rector of St. Mark's Episcopal church, 4427 Drexel boulevard, did not officiate at the wedding of Walter Scott Bogle and Miss Alta M. Melvin in the Bogle residence, 510 Roscoe street. He had intended to. Mr. Bogle had announced through the newspapers that he would. "But I didn't," said Mr. Van Zandt last night. "When I consented to officiate I did not know that Mr. Bogle's second marriage had been annulled. When I read about it Saturday morning I immediately telephoned Mr. Bogle and he would have to get another clergyman; that the canons of our church forbid us marrying divorced persons."

I think it was about 10 o'clock when I telephoned him. They were to have been married at 11 o'clock Saturday morning. Mr. Van Zandt was asked if he knew who officiated. "I do not," he said. "I am certain that no Episcopalian minister officiated, however."

Information Is Lacking.

Seeking additional information, the inquirer telephoned Mr. Bogle's apartment. Here a Japanese valet was encountered, who said he could give no information.

The next appeal was to Mr. Bogle's daughter, Mrs. Charles W. Gilmore, 2126 Lincoln Park West.

"I don't know anything about it," said Mrs. Gilmore.

"Weren't you at the wedding?"

"No. I was sick in bed. Mr. and Mrs. Bogle are on their honeymoon."

Inquiry was made next at the Norberta Real Estate company offices, of which Mr. Bogle was president and the former Miss Melvin was secretary. Mrs. Jessie Proctor, assistant to Miss Melvin, was found.

"Yes, they were married Saturday morning," she said. "They're on their honeymoon."

"Where?"

"At Mr. Bogle's summer home at Fontana, Wis."

"Can you tell us the name of the officiating clergyman?"

"No. He was a Presbyterian, but I don't know his name."

"Isn't Mr. Bogle an Episcopalian?"

"Yes, but he decided to be married by a Presbyterian. They will tell you the name at Fontana. Telephone for John Stobie. He's the caretaker." The caretaker was called.

"Sure," said Mr. Stobie, when long distance had completed the connection. "Sure, Mr. Bogle's here. The bride's here. They're both here. They're on their honeymoon. What? O, you want the name of the clergyman who married them? Wait a minute. I'll have to go to his house. It's about 100 yards from my lodge."

There ensued a wait of five minutes.

"Hello. This is Mr. Stobie. I'm sorry, but Mr. Bogle's asleep and not to be disturbed. Good night."

The February Sale of Silk Frocks

Brings Springtime Fashions Which Attest the Vogue of Crepe de Chine, Canton Crepe, Crepe Meteor and Taffeta

New weaves, new colors, new modes—each must have inspired the other, so charmingly are they harmonized in these assortments. The reason for each new silk is read in the varying silhouettes of these frocks. The beauty of the new garnitures is seen in the artistry of their adaptation here. And so it's a delightful feature of this occasion that

*One Comes to This Sale as to a Fashion Display
and Makes Selections at Very Special Pricings*

Every frock has its foundation for smartness in superior quality. Original handling of details, which is the finesse of fashion, gives distinction to the simplest frock in the sale. Nothing is lacking that makes for successful choice.

Women's Frocks Take Grace of Line for Their Varied Fashion Themes.

One may vary one's style with the time of day and be just as smart in a straight, slim street frock of crepe as in a frock of almost crinoline bouffance of taffeta or tulle for evening.

Spring Colors Are Cleverly Combined

Navy blue or black with gray, brown and sand color and a soft beige shade are much noted in these frocks. Pricings range from \$45 to \$150, according to the style and fabric.

Misses' Frocks Follow New Modes With Youth for Their Keynote.

Frills take all sorts of charming, fanciful motifs. Tunics adopt a piquant "apron" style. Necklines are varied for each lovely, youthful type. There are narrow girdles of ribbon.

Taffeta Frocks Are Gayly Plaided.

And in the frocks of the new silk crepes are vivid color touches—often of chiffon—introduced with an artist's eye for effectiveness. Prices are unusually interesting, from \$25 to \$135.

Specially Featured Are Silk Frocks at \$45 and \$55.

At \$55 are women's taffeta frocks, all eyelet embroidery over colors, and misses' taffeta frocks frilled and scalloped at the hem. At \$45, for misses, are taffeta frocks with fluted braiding and the new apron tunic, and women's frocks with frilled motifs and the bodice surplined.

Silk Skirts and Blouses in the February Sale

Bring New Features to Complement the Smartness of Each Other

More and more they are chosen together. Indeed, these assortments were assembled with that idea in mind. So selection at this Sale brings not only price advantages but assures uncommon smartness, a most satisfactory combination.

The Skirts—

Newest among the new are skirts of foulards, Canton crepe and crepe de Chine. Then there are skirts of Baronet satin, taffeta, poplin in every lovely spring and summer color. Pricings range from \$12.50 to \$30.

The Blouses—

Tailored blouses of crepe de Chine, and Georgette crepe blouses with dainty lace trimmings and taffeta slip-on blouses. Blouses of sand shade are here for the new tailored suits. Pricings are \$5.75 to \$15.

Unusual Values Are Skirts of Canton Crepe at \$25, and of Crepe de Chine at \$30. And Tailored Blouses of Taffeta and Crepe de Chine From \$6.50 to \$12.50.

U. S. BEG PARDON DEPARTMENT HAS BERGDOLL CASE?

BERLIN, Jan. 31.—Brig. Gen. Henry T. Allen, commander of the American army of occupation on the Rhine, has made a formal apology to both the Berlin government and the government of Baden for the recent attempt by men connected with the American forces to take into custody Grover Bergdoll, American draft evader, and his chauffeur, Isaac Stecher, says an official statement issued by the German government today.

The statement says that Col. Stone, acting on orders from Gen. Allen, called on the Imperial commission for the occupied Rhine area and declared Gen. Allen desired to make a formal apology to the Imperial German and Baden governments for the attempt to arrest Bergdoll on Baden territory.

Allen didn't order it. Through his official representative, the communication states, Gen. Allen declared he had given no orders for the attempt against Bergdoll, which he greatly deplored.

The order for Bergdoll's arrest, Gen. Allen stated, was issued by the provost marshal in Coblenz, who only recently arrived in Germany.

department today finally conceded that it had official information that Grover Cleveland Bergdoll, wealthy Philadelphia draft evader, was in Germany. Secretary Baker announced that he had received a cablegram today from Maj. Gen. H. T. Allen, saying he had ordered a thorough investigation of the attempt to abduct Bergdoll at Eberbach. The war department has not admitted that Charles Neaf of Baltimore, and Frank Zimmer of Denver, arrested and imprisoned by the German authorities after the attempt to kidnap Bergdoll, are connected with the army.

ILLINOIS LEGION BILL ON SOLDIER BONUS PREPARED

Has Solid Backing of State Organization.

(BY A STAFF CORRESPONDENT.)

Springfield, Ill., Jan. 31.—[Special.]—The American Legion, as represented by the Illinois state organization, is preparing a bill to provide a bonus for Illinois ex-service men that will be introduced soon. There will be no referendum provision attached.

The bill will be introduced by Representative D. S. Myers of Pontiac, former lieutenant colonel of the 12th infantry, it was announced by William D. Knight of Rockford, chairman of the legislative committee of the Illinois American Legion.

"The Legion by referendum," Mr. Knight said, "has determined the general character of the measure that is to be advocated. The bill will carry

all necessary legal and constitutional precautions. It will be the measure which members of the Legion all through the state will support. It will require no referendum, making necessary the issuing of bonds. If there should be a referendum on the bonds, however, the policy of the Legion will be to ask the legislature to provide for the earliest possible decisive action."

Speaker Dahlberg said tonight that the house committees would be ready for an announcement Thursday morning. There have been no official announcements as to any of the chairmen and Speaker Dahlberg said that the state might be changed before tomorrow night.

The senate committees will be agreed to Wednesday.

Thirty-five Radicals Will Sail for Russia Today

New York, Jan. 31.—Thirty-five radicals who arrived here today from Boston and Philadelphia will be deported to Russia tomorrow aboard the liner Esthonia, it was announced tonight by Commissioner of Immigration Frederick A. Wallis.

Illinois Central Directs Attention to the Grade Crossing Problem

For the four-year period ended December 31, 1920, there were 4,350 persons killed and 12,750 persons injured in automobile grade crossing accidents in the United States.

For the same period there were 158 persons killed and 659 persons injured in automobile grade crossing accidents on the Illinois Central System. Analysis of these cases shows that crossings considered the safest are actually the most dangerous.

A serious automobile grade crossing accident, involving personal injury or loss of life, is usually followed by a demand upon the railway for the elimination or "protection" of the crossing involved.

Crossing gates do not entirely eliminate accidents. People become educated to rely upon the gateman instead of upon their own faculties. If the gateman errs, the danger of accident is very great.

Electric warning bells do not entirely eliminate accidents. If they ring a great deal, automobilists disregard them. In addition, there is always the possibility that a bell may not be in order just at the moment of greatest danger.

Crossing flagmen are not infallible. The human element enters into most accidents, and crossing flagmen are like other human beings. Some of the most disastrous automobile grade crossing accidents have occurred at crossings where flagmen were on duty.

One of the results of crossing "protection" is to teach the public that crossings are safe. The opposite should be taught. All railway grade crossings are dangerous—the "protected" as well as the unprotected crossings. This should be impressed upon the minds of everybody, beginning with the children in the schools.

There are about 8,000 grade crossings on the Illinois Central System. It would cost approximately four hundred million dollars, or substantially more than the combined stock and bond issues of the company, to eliminate them by separation of the grades. The following is quoted from the report made by the Grade Crossing Committee of the National Association of Railway and Utilities Commissioners at Washington in November, 1920: "To eliminate all grade crossings in the United States would probably cost as much as all the railroads in the United States have cost."

Outstanding features of this question are: 1—Inability of the railways to eliminate all grade crossings at any period within present vision. 2—The unreasonable nature of some communities insisting upon the railways doing things for them that cannot be done for all. Every community has its dangerous crossings.

One state could not reasonably expect the railways to eliminate all of its grade crossings unless the same thing were done in neighboring states—in all states. The same principle applies to cities and towns.

The railway grade crossing problem is usually considered from two viewpoints—the railways and the public. There is the viewpoint of engineers and firemen, which should also be considered. Their duties are nerve-racking, and the habit of automobilists in racing to crossings, and darting upon the track immediately in front of locomotives, has a great tendency to confuse and distress them. They do not want to be involved in accidents causing personal injury or loss of life. They ought to have some assurance that an automobile will be brought to a stop before it is permitted to cross a railway track.

The benefits derived from the elimination of grade crossings by the construction of overhead bridges and underpasses—the only plan promising absolute safety—accrue largely to the public in safety and convenience. Therefore, when crossings are eliminated, the expense should be divided on some fair basis between the taxpayers receiving the benefits and the railway. If the people of a community paid in proportion to the benefits received when a crossing is eliminated, demands for elimination would be less frequent. More crossings could be eliminated.

The automobile, in proper hands, is an agency of safety at railway grade crossings. It can be driven up close to the tracks and stopped in perfect safety. That cannot always be done with a spirited horse. Therefore, the increasing use of the automobile and the decreasing use of the horse should be solving the grade crossing problem, instead of making it worse.

We recognize there are crossings that should be eliminated, but the crying need is for some plan of action that will prevent loss of life and destruction of property in automobile grade crossing accidents that can be put into effect immediately. One practicable remedy, which would cost but little, would be to inaugurate a great crusade against carelessness of automobilists at railway grade crossings. Require them to Stop, Look and Listen. No automobilist who does that will ever meet with an accident at a railway crossing.

Constructive criticism and suggestions are invited.

C. H. MARKHAM,
President, Illinois Central Railroad Company.

Ruddy Cheeks—Sparkling Eyes—Most Women Can Have

Says Dr. Edwards, a Well-Known Ohio Physician

Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets. You will know them by their olive color.

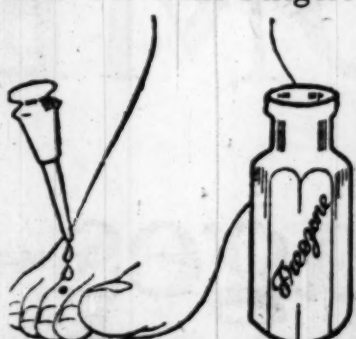

These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisons matter in one's system. If you have a pale face, yellow look, dull eyes, pimples, coated tongue, headaches, a listless, no-good feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results.

Thousands of women and men take Dr. Edwards' Olive Tablets—the successful substitute for calomel—now and then just to keep them fit, list and so.

CORNS

Lift Off with Fingers

Doesn't hurt a bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you'll lift it right off with fingers. Truly!

Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

CROWE RAIDS IN SUBURBS; SEEKS VICE COLLUSION

Seizes Chicago Heights
City Records.

Detectives from the state's attorney's office, armed with subpoenas issued by the grand jury which is investigating reports of collusion between gamblers and officials of Chicago Heights, raided the office of the city clerk of Chicago Heights yesterday. They also invaded more than a dozen resorts and gambling houses in Blue Island and Cicero.

The raid on the office of City Clerk Wilbur Sadler of Chicago Heights resulted in the seizure of all his books and records, which were taken before the grand jury.

In the raids on gamblers more than thirty persons were arrested and thousands of dollars' worth of gambling paraphernalia, including racing charts, faro layouts, and slot machines, were confiscated. The proprietors of the places raided will be taken before the grand jury tomorrow.

Some of Places Raided.
Among the places raided were:
EDWARD BLOUIN, 387 Western avenue, Blue Island. Blouin, his son, "Jimmy," formerly national bowling champion, and fourteen men arrested.

C. A. WILLARD, 4631 West Twelfth street, Cicero. Slot machine confiscated and several men arrested.

JOSEPH SHAPIRO, 4701 West Twelfth street, Cicero. Paddle wheel confiscated and six men arrested.

NICK PIFLES, 4801 West Twenty-second street, Cicero. Four men arrested and racing charts and poker chips confiscated.

Sheriff Also Raids.
Assistant State Attorneys Charles S. Wharton and Michael W. Kaveney and detectives under Chief Investigator Ben Newman questioned the men. Deputy Sheriff J. C. Hackstaff, single handed, raided the Roamer Inn, on

Western avenue, south of Blue Island, and arrested Dan Maher, keeper, seven inmates, and ten customers. He confiscated considerable liquor.

David Bars Professional Bondsmen.

Professional bondsmen are not going to find a lucrative field for business in his court, Judge Joseph E. David announced yesterday. The barring of professional bondsmen was one of the four reforms he inaugurated as soon as he took the bench in the Criminal court. He also said he would insist on: Speed in the selection of jurors.

When a case is set for trial it is going to trial on that date.

Ball cases will not be tried while the jail is overflowing with prisoners unable to obtain their release on bonds, several years, and necessitating the

confining of three and often four men in a cell.

Will Discuss Crime Drive.

Further plans to drive the criminal element out of the city are to be taken up at a dinner to be given by State's Attorney Robert E. Crowe to a number of city officials and business men at the Hotel Sherman Thursday evening.

The Hamilton club has appealed to its members to accept all jury service for which they are called in the next six months. Robert W. Dunn, president of the club, signed an appeal, stating that since fifteen judges have been assigned to the criminal court to clear up the criminal docket it was necessary that they be given every help.

Newspapers to Get Navy
Radio Service 16 Months

Washington, D. C., Jan. 31.—[Special.]—The secretary of the navy is authorized to give newspapers and press associations use of the department radio service without hindrance or interruption to June 5, 1922, under a resolution favorably reported to the house today by the merchant marine committee.

The newspapers and press associations are required to pay the same rates charged by privately owned and operated stations, except on the Pacific coast, for the reception and transmission of messages between America and the Orient.

Grandette

Perfectly Attuned to the
Musician's Mood

Kranich & Bach artisans—combining the skill of generations of piano builders—have achieved their masterpiece in the Grandette, the ideal grand for apartment and home.

Responsiveness of touch, singing quality, sweetness and power are in no other piano of this type so marvelously expressed.

Costs but little more than an upright. Occupies no more space. Is an immeasurably finer instrument.

For Skin Tortures

Zemo, the Clean, Antiseptic
Liquid, Just What You
Need. Is Not Greasy

Don't worry about eczema or other skin troubles. You can have a clear, healthy skin by using Zemo obtained at any drug store for 25c, or extra large bottle at \$1.00.

Zemo generally removes pimples, blackheads, blotches, eczema and ringworm and makes the skin clear and healthy. Zemo is a clean, penetrating, antiseptic liquid, neither sticky nor greasy and stains nothing. It is easily applied and costs a mere trifle for each application. It is always dependable.

In skin troubles, ordinary soaps are irritating and liable to aggravate the condition. Use Zemo soap. It is antiseptic, soothing, and hastens the process of healing.

BIG SALES MAKE AUTO SHOW GUSH WITH OPTIMISM

Dealers See Biggest Year
as Crowds Pour In.

BY MORROW KRUM.

Optimism gushed from the throats of local automobile dealers yesterday as the crowds of dealers and motor fans passed through the Coliseum, the Coliseum Annex, and the First Regiment armory. On every hand salesmen were talking of the sales they had made, advertising managers were growing more cheerful, and the local dealers were radiant with "prosperity smiles."

What the Studebaker Sales company of Chicago claims to be "the big news" of the show was sent out yesterday afternoon when a trainload of automobiles rolled into Chicago from the Studebaker factory in South Bend.

The train of automobiles represents, according to Henry R. Levy, president of the local sales company, an expenditure of \$150,000.

"85 Per Cent of Shipments Sold."

"I can say that 85 per cent of these cars are already sold," said Mr. Levy.

"Now, sir, does that indicate a slump in business? You write your own answer."

A canvass of the local dealers only goes to indicate their faith in the "strictly business" show.

"Now there is one thing that indicates the mind of the nation more than anything else and that is the number of sales that have been made since the opening of the show," said Harry Hollingshead, local Nash distributor.

"I am not at liberty to tell you how many cars we have sold—highways, either you know. But I do want to say that the number would give you a big surprise. Of course this will be a big year. There can be no doubt of that. The dealers are placing big orders."

Sees Greatest Year.

A similar statement was made by R. C. Cook, local Velle distributor.

"This is going to be one of the greatest years the automobile business has ever known," he said. "I can see every indication of this at the Coliseum. People are buying cars. What more can you ask?"

Harry Branstetter, Chicago distributor for the Kiesel car, asserted that he and his force of salesmen had not only sold more cars during the first two days of the opening of the show but that they had more favorable prospects than they have ever had during the first two days of any show.

Speeds Up Factory.

H. A. Holder, president of the R.V.

AUTO SHOW NOTES

"That good Maxwell" is the way that company expresses it.

The Commerce truck is exciting much interest, the salesmen say.

R. G. Hendricks of the King Motor Car company reports many new features in this year's model.

"A better car" is the word given out by the Hudson people.

The Kiesel company announces the appearance of a seven passenger touring car. Also a new truck.

Engine ability is the chief feature of the Columbia motor cars on exhibition.

There are several new luxury features in the Premier.

Ralph Mulford, race driver, who recently broke the world's stock car record for speed, arrived in Chicago yesterday.

According to an announcement made by the American Automobile association, Mulford drove a Paige 6-66 stock model over the sands of Daytona beach at the rate of 102.5 miles an hour.

Motor company, asserted the records of sales made by the local distributors will put his factory on a near capacity production basis.

Clarence E. Ehringer, local Reo dealer, told the same story.

Tonight in the Congress hotel the Old Timers' club will gather around a banquet table.

An election of officers will be held. It is the one big social organization of the automotive industry.

At noon today the Agate club will give a luncheon in the Congress hotel to executives, sales managers, and advertising managers.

PAIGE

THE MOST BEAUTIFUL CAR IN AMERICA

The Fastest Stock Car in the World

On January 21st the Paige Daytona Model 6-66 broke every stock car record for speed when it covered a measured mile in 35.01 seconds—a pace of 102.8 miles per hour.

This marvelous feat was accomplished on the sand beach at Daytona, Florida, and both the time and chassis checking are officially attested by the Contest Board of the American Automobile Association.

Today, therefore, Page stands as the unquestioned stock car champion of the world. And, what is even more, the entire line of Paige 6-66 Models is revealed as the most important automotive development of the age.

Henceforth these cars must be recognized by the entire world as Speed Masters of the highway. There need never be humiliating dust for the 6-66 owner because he will drive with the serene confidence of the true champion—and his horn blast will be more than an idle boast.

If you would be convinced, take just one demonstration in a Paige 6-66 Model and judge it from the standpoints of power, speed, acceleration, spring suspension and general motor efficiency.

Get the facts—actual lapsed time of the tests—and make a record on the demonstration card furnished by our dealer.

Then, take a second demonstration in any other car—at any price—and compare the results. That is all we ask and it is all that any good sportsman could possibly desire.

And remember, please, when you ride in the 6-66 you are riding behind an exclusive Motor—a six cylinder power plant that you will find in the Paige and no other car in the world.

We repeat, take just one demonstration—and draw your own conclusions.

HUNT FOR PRIZE BEAUTY STIRS CITIES' RIVALRY

Freeport Mayor Aids in Tribune Contest.

At the opening yesterday of THE TRIBUNE'S \$20,000 search for the sixty most beautiful girls in Illinois, Indiana, Iowa, Michigan and Wisconsin, it early became apparent that city and state pride has been thoroughly aroused in what is the greatest beauty contest ever conducted.

Freeport Mayor Aids.

No sooner had the mayor of Freeport learned of the quest than he issued the following proclamation:

"To the People of Freeport: Whereas, search is being made by THE CHICAGO TRIBUNE for the most beautiful girl in this territory; and Whereas, THE TRIBUNE has announced that it will pay \$10,000 in cash and \$10,000 additional in cash prizes ranging from \$1,000 to \$50,000 to sixty girls who will be chosen for the contest; and Whereas, this offer is open to every girl—unmarried or widow, residing anywhere in this vicinity; and Whereas, Great honor can come to our city if one of the prize beauties is found here; and

"Whereas, I believe that our fair city is noted for its beautiful girls who are therefore eligible for the high honor offered; now, therefore,

Urges Citizens to Get Busy.

"I, as mayor of this city, suggest that our citizens institute diligent search for the most beautiful girl within our corporate limits and within the immediate vicinity and that all citizens join in, entering as many of our fair girls in this contest as possible to the end that the grand honor may be bestowed upon our city as being the home of the most beautiful girl in the states of Illinois, Indiana, Iowa, Michigan and Wisconsin.

"Furthermore, I, as mayor, advise citizens entering photographs of this city's beautiful daughters in this \$20,000 contest now being conducted to send the photographs at once, to the end that some one of our many beautiful girls may be awarded the Grand Prize of \$10,000 in cash and that this city may be honored nationally for its beautiful girls.

(Signed) W. L. CALKINS, Mayor.

Rules of the Contest.

From all of the five states included in the contest, photographs can be sent to THE TRIBUNE yesterday. The rules are simple:

Select a photograph of the prettiest girl you know—yourself, a friend, or a relative. Write her name, occupation, and home address on the reverse side and mail it to "Beauty Contest," THE CHICAGO TRIBUNE, 7 South Dearborn street, Chicago, Ill. Only the initials, occupation, street, and town will be published. All pictures will be viewed by the judges and the sixty nominees for the Grand Prize picked. New photographs of these winners will be made and from these the judges will pick the winner. In case two or more subjects are judged equally beautiful, the full sum offered will be paid to each.

The contest will close at midnight Saturday, April 9. Send in the pictures of your entrants and watch THE TRIBUNE for their publication. The first collection will appear in the rotogravure section of next Sunday's Tribune. Thereafter, they will be published in both daily and Sunday issues until the close of the contest.

Division of the Prizes.

The money will be paid as follows: A Grand Prize of \$10,000 will be awarded to the most beautiful girl to be found in the five states. She will be picked from the sixty winners of territorial prizes, to be distributed as follows:

CITY OF CHICAGO—First prize, \$1,000; second prize, \$250; third prize, \$100; fourth to tenth prizes, \$50 each.

ILLINOIS (outside of Chicago)—First prize, \$1,000; second prize, \$250; third prize, \$100; fourth to tenth prizes, \$50 each.

INDIANA—First prize, \$1,000; second prize, \$250; third prize, \$100; fourth to tenth prizes, \$50 each.

IOWA—First prize, \$1,000; second prize, \$250; third prize, \$100; fourth to tenth prizes, \$50 each.

MICHIGAN—First prize, \$1,000; second prize, \$250; third prize, \$100; fourth to tenth prizes, \$50 each.

WISCONSIN—First prize, \$1,000; second prize, \$250; third prize, \$100; fourth to tenth prizes, \$50 each.

Selection of Winners.

Thus ten prize winners will be selected from each of the six territories. From these sixty beautiful girls the winner of the Grand Prize of \$10,000 will be picked by the judges of the entire contest, three celebrated artists from the Art Institute of Chicago.

The contest is free. There is no charge of any kind. It is open to every girl—unmarried or widow—residing in the five states, provided she is not a professional beauty, such as a stage actress, a movie actress, or an artist's model.

15 NEW CASES OF SMALLPOX FOUND IN AUBURN PARK

Auburn Park, canvassed by forty-seven health officers yesterday, yielded fifteen new cases of smallpox, bringing the total in the section up to fifty-two reported in the last seventy-two hours. Eight children from one family alone were taken to the isolation hospital yesterday. In age the eight children ran from Jacob Haspers, 2 months old, to Clarence and John Haspers, 13 year old twins. They live at 7124 South Peoria street. Other Haspers children stricken with smallpox are Eldridge, 12; Argean, 10; Louis, 9; Harriet, 8; and Jeanette, 2 years old.

Sleeping sickness claimed another victim in the death of Adolph Wenzel, 55 years old, 5958 Wentworth avenue, a conductor on the elevated lines. Dr. Alexander S. Herschfeld,

Mr. Cohan Laughs and So Do We

BY PERCY HAMMOND.
NOTHING more savory than "The Tavern" has come from Mr. Cohan's mischievous kitchen since "Seven Keys from Baldpate." If I may venture an opinion so

In it Mr. Cohan makes a broad joke of the muse of the theater and several of its handmaidens—the drama, acting, costuming, and criticism—and his quiet ribaldry is so unconfined that it extends even to the theater's audiences in its pleasant spoofing.

I say that Mr. Cohan does these funny things in "The Tavern" though the author of the play is LOWELL SHERMAN, (Abbe Piccola) Cora Dick Gantt. But it is Cohan's tongue in Cohan's nose; and it is not hard to believe that the dramatist, himself, sits upon the sharpest of his impish tacks—her wounds healed, no doubt, by ungentle royalties.

"The Tavern" is a joke-melodrama, accompanied by sly Cohan gibes at dramatic, Barrie, fantasy. It is something like a dunce-cap, ornamented with humorous symbols, the most malicious of which represent you, gentle playgoer, and us, the gentler critics. For the character who throughout the play announces himself as the theater's audience, and who functions sometimes as a theater reviewer, turns out in the end to be a harmless though incurable idiot, loosed for a foolish time from the institution in which he had been confined for his ingenious booberies.

On the surface "The Tavern" is a hefty old melodrama, comprising most of the bad rhetoric, bad elocution, strident gestures, shrieks, situations, and crises known to the art of the theater. There is a cruel snowstorm, accompanied by lightning, a ruined lady, with her hair down her back, romances, and a mysterious thick as mud. Laughter treads upon the halting heels of old fashioned thrills, and every one, according to last night's evidence at the Grand, may get what he wants and be more than satisfied.

Lowell Sherman acts with luscious posture and melody the character of the mysterious Vagrom Mag which in New York is undertaken by Arnold Daly. He does it whimsically and fun-like, with the eloquent, platitudinous and effective gestures of an amusing monomaniac—clown, cavalier, satyr, and imbecile. He intends to hurt you, audience, when he declaims against the word "cute," for the word "cute" is the cosmic adjective of acting's lay-criticism. Mr. Sherman's lines are humorous after the fashion of those of the Second Grave Digger, but he is good at them and picturesque. So are all of the competent cast, good at their homes—Miss Rita Romilly with her steam siren yells to the medieval sheriff with his anomalous tin star. Miss Isabel Withers, with dimples, youth, good looks, and an accurate sense of the fitness of things of the kind, impressed me most, however, among the personalities of the play.

2 SHOT, 1 BEATEN, FIVE JAILED IN ROW OVER FOOD

It doesn't always pay to be over-critical of your food. Mr. Kavanda of 1701 Laffin street, with a bullet in his right thigh; his brother Edward of the same address, with a bullet wound in his right arm, and their friend, Cyrus Jira, bearing the marks of a severe beating with a club, are locked up at the Lawndale station as a result of not appreciating this truth.

The trio late last night visited the restaurant of Julius and Frank Clamour at 2100 West Twenty-second street. The food didn't please them and they said so. Then one of them knocked some dishes from the table by way of emphasis, and the fight was on. It was Frank Clamour who felled Jira with the club. He told them to leave the field of battle, but the two Kavandas had fled. He told them they lived and their arrest followed. The Clamour brothers are in an adjoining cell.

Two Indicted for Murder of Jeweler Paul Loberg

John Deuben and August Benson, identified as the murderers of Paul J. Loberg, a Milwaukee avenue jeweler, who was shot to death on Dec. 22 last, were indicted yesterday by the January grand jury. The jury also voted indictments against Deuben, Benson, Charles Johnson, and Dave Griff on charges of robbery with a revolver, assault to rob, and stealing an automobile.

ASK SAFE SUNDAY FOR DEMOCRACY ON NORTH SHORE

Evanston Council Urged to Repeal Blue Laws.

"Make the Sabbath safe for American democracy" was the shibboleth adopted last night by men and women members of the North Shore Athletic league, who signed a memorial petitioning the Evanston city council to repeal the suburb's blue laws.

Existing ordinances now bar Sunday baseball, football, tennis, and golf. The petition asks that a referendum be had to ascertain public opinion. Representatives of all north-shore towns attended the meeting, which was held at the Evanston Commercial club.

Calls Speakers Bolsheviki.

The chief speaker was Peter N. Jans, an automobile dealer, living at 2019 Ridge avenue. In outlining the aims of the league he said:

"Reformers who seek to make blue laws should be classed as bolsheviki. They are fermenters of discontent. They are disturbers of American social life. The blues as well as the reds are attempting to destroy this country's noblest ideal—liberty."

"Aids to Healthy Public Life."

"We believe the lawful Sunday sports are aids to a healthy public life. We think it mischievous interference to attempt to promote rigid blue laws. Evanston's existing law prohibiting Sunday sports is a failure if it is designed to assist in building good citizenship."

Organizers of the league plan to have eight teams, representing Waukegan, Great Lakes, Highland Park, Glenview, Winnetka, Wilmette, Gross Point, and Evanston.

A SOFT ANSWER TURNETH AWAY THESE BANDITS

A smile and kind words turneth away wrath—and bandits. At least they did in the case of Mrs. Marie Woodman Tufts, choir singer, according to the story she told last night.

"I was on my way from my home at 6752 Perry avenue to the People's Liberal church at Sixty-sixth street and Stewart avenue Sunday night," she said. "Two men stepped in front of my automobile and demanded my purse. I spoke to them and said, 'Good evening.' One gave a sort of growl and came to the door of the sedan. 'That side is locked; you will have to come to the other side,' I informed him. He shuffled around to the other side.

"What ye got on y'?" he asked. "Nothin', and I smiled again. 'Any money?' 'No.' 'Wearin' any furs?' 'No.' 'Well, you seem like a good sport—you can go on,' the fellow said."

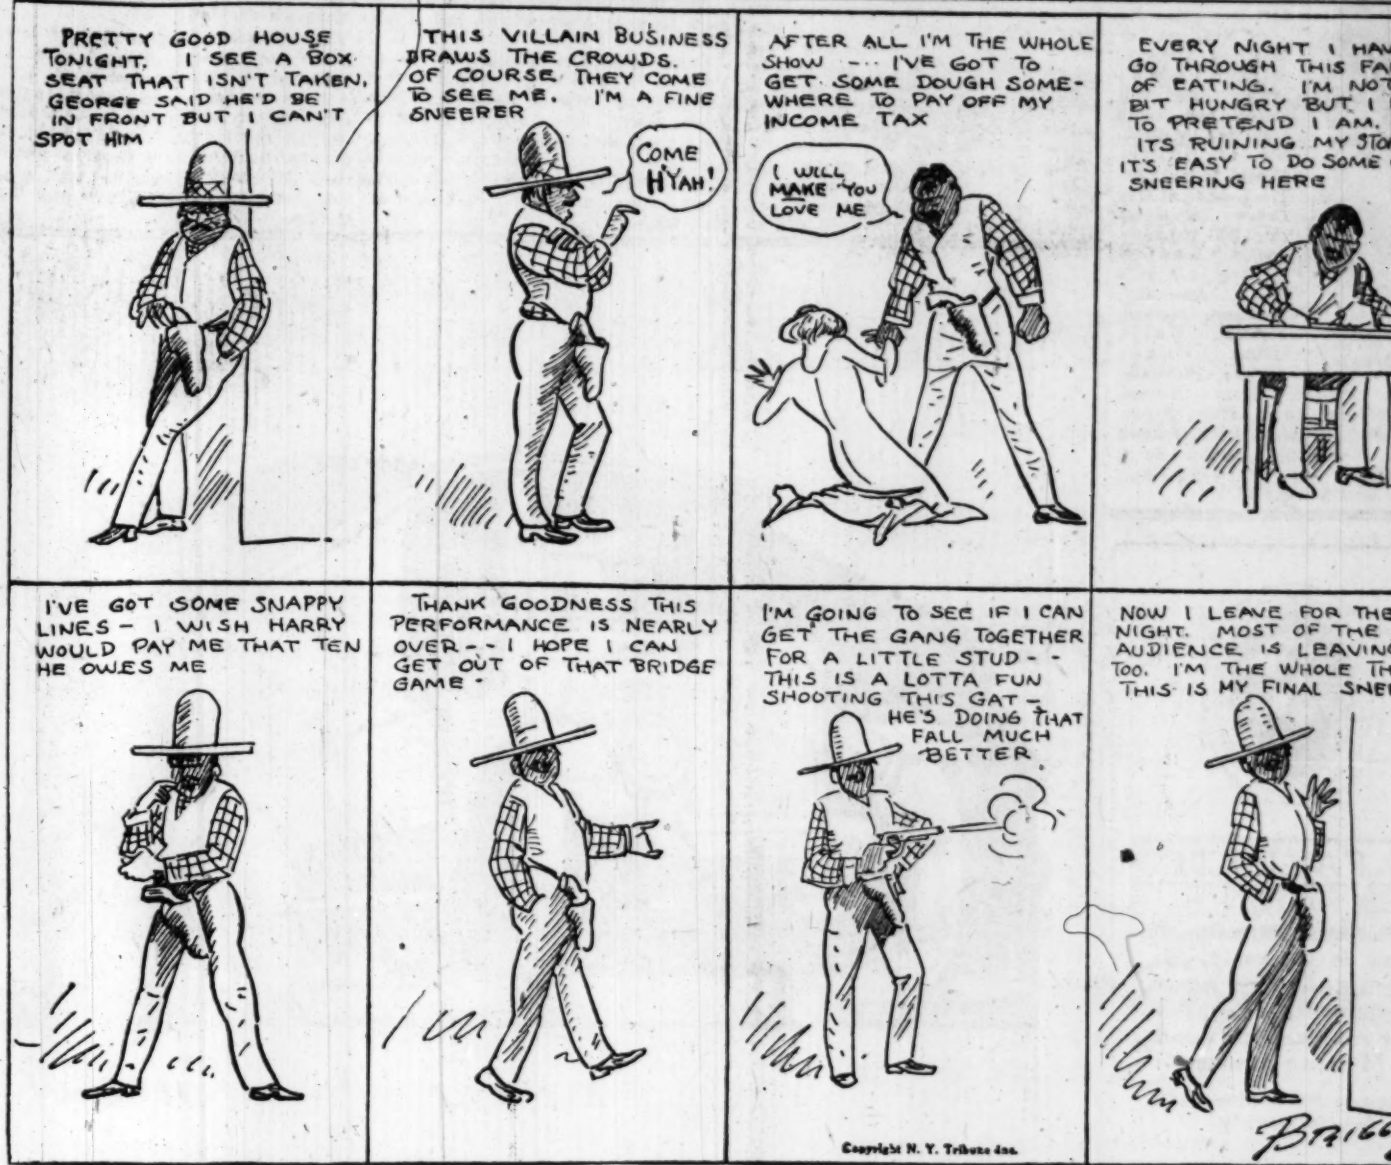

TENANTS NAME MEN TO LOBBY FOR RENT LAW

A committee which will go to Springfield next week and lobby for legislation protecting tenants against exorbitant rents was named last night at a meeting of the Chicago Tenants' Protective association in the Transportation building. The committee will ask for a hearing before the legislative housing commission, of which State Senator Kossinger is chairman.

The committee is composed of former Judge Robert E. Turley, chairman; E. P. Patterson, secretary of the league; E. F. Hammond, A. E. Jussurun, J. T. Nichols and Dr. H. L. Van Tuyl. "Whatever measures are passed by the legislature, we will endeavor to make retroactive to Jan. 1, 1921," Patterson said. "That is if a maximum rent is established for the excess rent they have paid since the first of the year. The laws advocated will be similar to those passed in New York and Wisconsin, both of which have been held constitutional by the courts."

A branch of the league in Hyde Park will be organized Thursday night at a meeting to be held in the Ray school, Fifty-sixth street and Kimbark avenue. At the same time a drive will be launched to enroll a larger percentage of the 400,000 tenants in the city.

WONDER WHAT THE BAD MAN IN THE SHOW THINKS ABOUT

I'M THROUGH, SAYS DE RECAT'S WIFE, STARTING SUIT

An unexpected visit paid by Mrs. Beatrice De Recat and a detective on the night of Jan. 29 to the apartment of Mrs. Helen "Billy" Blair, 731 Montrose avenue, resulted yesterday in Mrs. De Recat filing suit for separate maintenance.

"I was on my way from my home at 6752 Perry avenue to the People's Liberal church at Sixty-sixth street and Stewart avenue Sunday night," she said. "Two men stepped in front of my automobile and demanded my purse. I spoke to them and said, 'Good evening.' One gave a sort of growl and came to the door of the sedan. 'That side is locked; you will have to come to the other side,' I informed him. He shuffled around to the other side.

"What ye got on y'?" he asked. "Nothin', and I smiled again. 'Any money?' 'No.' 'Wearin' any furs?' 'No.' 'Well, you seem like a good sport—you can go on,' the fellow said."

"I'm through with him forever," Mrs. De Recat said yesterday. "Once before I filed a separate maintenance suit, but very foolishly retracted. There'll be no retraction now."

Mrs. Blair, her daughter, Mary Jane, and the latter's grandmother occupy the Montrose avenue apartment. Prior to Mrs. De Recat's visit detectives said they had located her husband's car in a garage back of Mrs. Blair's home. The theatrical manager had told his wife he had sold the car.

Husband from West Traps Wife, Alleged Affinity

Mrs. Albert B. De Pue and her two children of Plankinton, S. D., came to Chicago several months ago to spend the summer. She was supposed to return home Sept. 1, but instead wrote her husband that "in consideration of \$10,000 she would return and be a good wife to him." De Pue came to Chicago. His little son told him Mrs. De Pue was often in the company of Harry J. Scholtz of 845 Irving Park boulevard. Later, it is charged, she and the children moved over to Scholtz's flat. Early this morning, on De Pue's complaint, the flat was raided and the two were arrested. De Pue says his father was a "distant relative of Chauncey Depew."

HERO OF \$6,000 GEM THEFT KISS ARRESTED AGAIN

Edgar C. Erickson, clothing merchant at Armitage and Milwaukee avenues, who is alleged to have kissed Mrs. Helen De Woody, 1424 Olive street, with so much fervor that she did not hear intruders when some one entered her home and looted a jewel case, was arrested on a federal warrant by Deputy Marshal Thomas Smith last night.

The arrest was made on the complaint of creditors of the store, who feared Erickson might leave the state before his financial affairs are straightened out. An involuntary petition in bankruptcy filed against him a week ago charged that his assets lacked at least \$32,000 of covering his liabilities. Erickson first gained publicity last November when he was arrested on complaint of Mrs. De Woody, a divorcee. She charged that he had knowingly aided in the theft of \$6,000 in jewelry from her apartment by kissing her when the thieves entered. According to the police, he admitted covering the woman's ears with his fingers while an accomplice entered the room and pilfered the gems.

That charge was dismissed when the jewelry was recovered. According to Erickson, he had originally purchased the jewelry and presented it to Mrs. De Woody.

J. W. HOSMER, 79, DIES OF INJURIES; STRUCK BY AUTO

J. Warren Hosmer, 79 years old, 55 Bellevue place, president of the J. W. Hosmer company, insurance agents, died at the Passavant hospital yesterday from injuries sustained Jan. 16, when he was struck by an automobile owned and driven by Jacob Goldberg, 4655 Sheridan road.

The accident happened at East Ontario street and North Michigan avenue, shortly after Mr. and Mrs. Hosmer had left the home of Miss Eliza Hosmer, a sister, at 602 Rush street, to attend a dinner party.

Mr. and Mrs. Hosmer had just left a safety island on North Michigan avenue when they were struck by the machine. Both were injured, but Mrs. Hosmer is convalescent.

Mr. Hosmer was a member of the Union League and Glen View Golf clubs. He was an old member of Unity church in Harry avenue, where his funeral will be held at 2 p. m. tomorrow. He had been a Chicago resident since 1868.

Mr. Graber Didn't Want Gas Bill to Haunt Him

Fred Graber, 40 years old, a masseur, 152 West Chestnut street, died last night that he wanted to die. Not wishing his landlady to pay for the gas, he left an envelope, containing \$2 and a note requesting that the money be used to pay the bill before he turned on.

PAPA WINS Elopement Bride Whose Marriage Is Annulled on Irate Father's Plea.

"Hitters is about the only doubtful medicine left on the list. I have information, however, of orders stopping the use of alcohol in its manufacture will be sent out soon."

Permits of thirteen of the largest medicinal manufacturers were revoked by Mr. Stone. It is expected that only about 1,000 manufacturers will be allowed to do business this year. Last year there were 5,000.

Assistant Attorney General C. W. Middendorf announced that he would appear before Judge Landis this morning with petitions asking that fifteen Chicagoans mostly alcoholics be held in contempt of court for violating injunctions.

Prohibition is tapering the fifty-six year old of the Washingtonian home toward zero, according to the annual report of J. M. Skinner, superintendent. During the years 1910-1919 the home cared for an average of 921 patients, mostly alcoholics, during each year. In 1920 the home had 122 patients, of which 107 were alcohol cases, 16 drug addicts, and two mild mental cases.

SEEK MORE HARSH LAWS

Washington, D. C., Jan. 31.—[By the Associated Press.]—Prohibition leaders in congress are hoping to tighten the Volstead act. They are planning new legislation for a jail sentence without any court option of a fine for the first offense of selling liquor.

Other changes discussed are a search and seizure clause to reach home brew, and to make more sweeping the present law, so a person buying liquor may be punished equally with the person selling it.

Confiscation of every drop of liquor held by citizens, regardless as to when or how it was acquired, also is being urged. This would legalize seizure of all stocks held in a private cellar—or a safety deposit vault.

The big fight for amendment will start with the opening of the new session in April, according to dry leaders. They say they have enough votes to get the house now to put through any added restrictions they might desire, but that there is not enough time left.

IF FLYER DROPS UPON YOU, PINCH AND FINE HIM!

Chicago took action yesterday to provide an air code to protect its citizens from accidents caused by aviators flying from the skies. New York is expected to take the same action today.

The proposed ordinance, approved yesterday by the city council aviation committee, prohibits all "stunt" flying within the city limits except over the lake or over a flying field. It provides that aircraft must not fly over the city at an altitude lower than 2,000 feet except when "taking off" and landing, and requires all machines to keep within gliding distance of a field at all times. The maximum penalty for violation would be \$200 and costs.

Ald. Harvey Crowe, a member of the committee and a veteran of the army air service, urged that a section be incorporated prohibiting all dirigibles (Cling Inflation) from flying over the city. Action was deferred.

Three bandits who held up Walter Spiegel of 3714 South Paulina street at Rooster and Lawrence avenues last night took \$36, his overcoat, and a pair of new shoes, leaving him in stocking feet in the snow.

HALTS FLOW OF MILLION GALLONS BOOZE A MONTH

U.S. Stops Supply of 1,000 Medicine Makers.

The flow of alcohol and wine from Chicago warehouses to government permits was cut 1,000,000 gallons a month by instructions received yesterday by Ralph W. Stone, federal prohibition director. Close to 1,000 manufacturers of medicinal preparations are denied further alcoholic shipments by this order.

Names of six proprietary medicines are included in the list sent out yesterday. They are spirits of camphor, spirits of niter, Jamaica ginger, wine of peppin, Hoffman drops, and elixir of Torpin hydrates. The order states that it is the policy of the bureau to compare with the amount of alcohol and wine released to manufacturers.

Will Force Out All Crooks.

"Since Sept. 1 manufacturers have averaged withdrawals of more than a million gallons of wine and alcohol monthly. Whisky withdrawals average less than 50,000 gallons a month. Seven-tenths of the manufacturers are hit by this order."

"By cutting down the list it will be much easier to check up on the withdrawals. We will be able to account for every drop of alcohol moved, just as we are able to check up on every pint of whisky that comes into Chicago. We can in that way force every crooked manufacturer out of business."

Thirteen Permits Revoked.

"Hitters is about the only doubtful medicine left on the list. I have information, however, of orders stopping the use of alcohol in its manufacture will be sent out soon."

Permits of thirteen of the largest medicinal manufacturers were revoked by Mr. Stone. It is expected that only about 1,000 manufacturers will be allowed to do business this year. Last year there were 5,000.

Assistant Attorney General C. W. Middendorf announced that he would appear before Judge Landis this morning with petitions asking that fifteen Chicagoans mostly alcoholics be held in contempt of court for violating injunctions.

Prohibition is tapering the fifty-six year old of the Washingtonian home toward zero, according to the annual report of J. M. Skinner, superintendent. During the years 1910-1919 the home cared for an average of 921 patients, mostly alcoholics, during each year. In 1920 the home had 122 patients, of which 107 were alcohol cases, 16 drug addicts, and two mild mental cases.

SEEK MORE HARSH LAWS

Washington, D. C., Jan. 31.—[By the Associated Press.]—Prohibition leaders in congress are hoping to tighten the Volstead act. They are planning new legislation for a jail sentence without any court option of a fine for the first offense of selling liquor.

Other changes discussed are a search and seizure clause to reach home brew, and to make more sweeping the present law, so a person buying liquor may be punished equally with the person selling it.

Confiscation of every drop of liquor held by citizens, regardless as to when or how it was acquired, also is being urged. This would legalize seizure of all stocks held in a private cellar—or a safety deposit vault.

The big fight for amendment will start with the opening of the new session in April, according to dry leaders. They say they have enough votes to get the house now to put through any added restrictions they might desire, but that there is not enough time left.

IF FLYER DROPS UPON YOU, PINCH AND FINE HIM!

Chicago took action yesterday to provide an air code to protect its citizens from accidents caused by aviators flying from the skies. New York is expected to take the same action today.

The proposed ordinance, approved yesterday by the city council aviation committee, prohibits all "stunt" flying within the city limits except over the lake or over a flying field. It provides that aircraft must not fly over the city at an altitude lower than 2,000 feet except when "taking off" and landing, and requires all machines to keep within gliding distance of a field at all times. The maximum penalty for violation would be \$200 and costs.

Ald. Harvey Crowe, a member of the committee and a veteran of the army air service, urged that a section be incorporated prohibiting all dirigibles (Cling Inflation) from flying over the city. Action was deferred.

ROCKEFELLER ADDS 70 MILLION TO SCHOOL FUND

New York, Jan. 31.—The general education board of the Rockefeller Foundation has increased its resources by \$70,000,000 through gifts of John D. Rockefeller last year, the annual report of the board, made public today, said.

A fund of \$50,000,000 was donated to be used in the discretion of the board in assisting colleges and universities to increase teachers' salaries, and \$20,000,000 was given for the improvement of medical education. The funds were given without stipulation as to when they were to be used, and the board was authorized to expend the entire principal and interest as it saw fit.

How Some Was Spent.

The report said that up to July 1, 1920, the board had appropriated \$19,635,707 toward a total of \$59,769,041 to be raised by institutions to meet increased salaries for teachers.

A total of \$13,661,747 was contributed last year to medical schools. Of this the large sums were given to the following: University of Rochester, \$5,000,000; Vanderbilt university, \$4,000,000; Washington university, \$1,577,500; Yale university, \$1,129,145; Harvard university, \$650,000, and Johns Hopkins university, \$400,000.

Schools in South Helped.

Activities in cooperation with southern states in the field of rural and secondary education were continued and \$360,046.30 was expended for this purpose. Four Negro educational institutions benefited to the extent of \$1,100,000 appropriated toward their endowment funds and annual grants of \$120,500 were made for the increase of teachers' salaries.

Six Negro colleges divided \$153,600 toward a total of \$385,125 to be raised for improvement of their physical plants. Total appropriations of the board toward Negro education amounted to \$2,291,737.

The report said \$60,000 had been appropriated for the National Society for Vocational Education for a study of art as related to industry.

NAVY BUILDING PLAN UNCHANGED IN HOUSE REPORT

Enlisted Personnel Cut to 100,000.

Washington, D. C., Jan. 31.—The naval appropriations bill, completed today for report tomorrow to the house, makes no cuts in the continuing building program of 1916, but provides for reduction of enlisted personnel of the navy to a maximum of 100,000 men as compared with the present possible maximum of 145,000.

This action, if sustained by the house and senate, will make it necessary to close the naval establishment to recruits for an indefinite period and require the laying up of many effective ships.

Even with the reduced personnel it would be possible, Secretary Daniels said, to keep in commission all the late dreadnaughts and about half of the new destroyers.

Recommendations for extensive naval development of the Pacific coast were presented to the senate and house today by a joint committee. The committee unanimously favored creating four new military defenses.

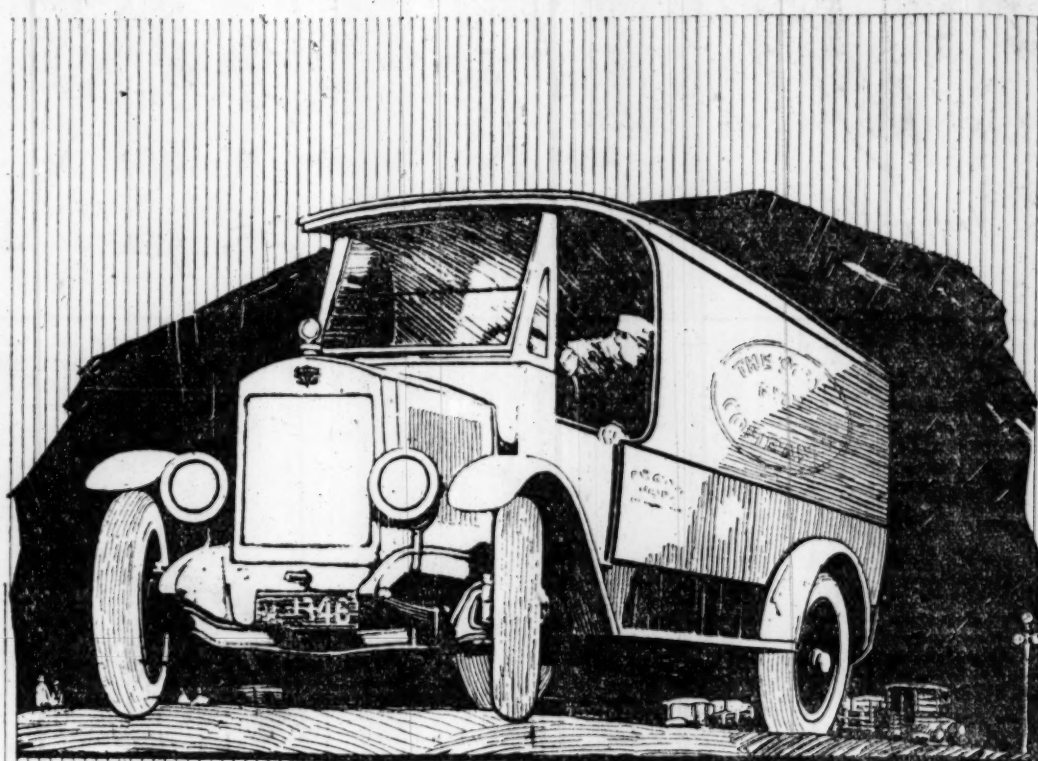

The most important was for a naval fleet base at Alameda, on San Francisco bay. Other recommendations call for an aviation base in Puget sound region at Sand Point, Wash.; retention of Ediz Hook, Wash., as an operating station for a small unit of aircraft, destroyers, and submarines; a submarine base at San Pedro, and a lighter than air naval aviation base at Camp Kearney, near San Diego.

DANIELS TELLS ARMY CRITIC TO LET NAVY ALONE

Washington, D. C., Jan. 31.—(Special.)—Secretary of the Navy Daniels in a letter today to Representative Hicks of the naval affairs committee took issue with conclusions recently given the committee regarding the effectiveness of naval bombing by Brig. Gen. Mitchell, assistant chief of the army air service.

He deplored the fact that an army officer presumed to discuss naval experiments before the committee.

Secretary Daniels said that bombing experiments conducted by the navy against the old battleship Indiana, at anchor, could not be used to justify Gen. Mitchell's statement that aviation bombing would destroy any battleship.

COLBY DECLINES TO CAPER ABOUT WITH JOHNSON

(BY A STAFF CORRESPONDENT.)

Washington, D. C., Jan. 31.—[Special.]—The state department remained silent today about its negotiations with Japan, despite renewed demands from Senator Johnson and other Pacific coast statesmen for information.

Senator Johnson today called upon the department to tell the country immediately the terms of the proposed new treaty with Japan.

Secretary Colby's reply indicated he would take his own good time about making the negotiations public.

Won't Share Spotlight.

"If Senator Johnson wants to execute a ghost dance over this matter, he will have to do it without me as a partner," Mr. Colby said.

Responsible members of the senate know we are proceeding in this matter regularly. It is an important discussion, in strict conformity to the legal media of exchange. No political or editorial exigencies can tempt me from the serenity of my course. There is no secretiveness here. The matter cannot be settled in a covert manner. There is no indiscretion or concealment.

"The West Must Know."

Senator Johnson said:

"The people of the west, to whom this subject is of paramount importance, are entitled to know what that report contains. Yesterday it was discussed at length in Japan. Our people should not have to await its details through Japanese news channels.

"It is not sufficient that the representatives from California or the foreign relations committee, under a promise of secrecy, should finally know what disposition is intended of the agricultural lands of California and other western states. The people of these western states are entitled to know it, and know it now."

THE BANK OF KINDNESS

Draw a Check on It for the Unfortunate.

BY REV. G. A. MACWHORTER.

Miss Selma Harris, beautiful daughter of Syria, though born in America,

is touring the United States, speaking in behalf of her sisters and brothers in the Levant who are suffering persecution and starvation.

Miss Harris—pronounced "Herize" in the tongue of her forefathers, lives in Oak Park. She is traveling about the country making an appeal for the Near East Relief Fund. Her grandparents are refugees in Beirut. The Bank of Kindness, acting as a clearing house for

contributions to this fund, has received only five checks so far, totalling \$140. It is expected the fund will be enriched by many substantial contributions following the appearance of Miss Harris' winsome photograph.

The south park police officers were the first to subscribe to a memorial fund for the widow and five children of Policeman Martin T. Collins, who was killed on duty on Jan. 2, 1921.

Many inquiries have been received from citizens who are anxious to contribute, and the Bank of Kindness announces that the Martin T. Collins Fund is in the custody of the vice

president and cashier of the Washington Park National bank, A. E. Olson. Sixty-third street and Evans avenue, to whom checks may be sent, directly or through the Bank of Kindness, care of THE TRIBUNE.

The famine in China may rival the war's total in deaths. The mortality list during the next six months will exceed the total dead in the war unless America comes to the rescue on a tremendous scale, declares the Rev. Dr. W. A. Mather, missionary of the Presbyterian church, who has just returned from China. The Chinese are dying at the rate of 15,000 a day.

AUTOMOBILE SALON

Presenting the Aristocracy of Motordom

DRAKE HOTEL, JAN. 29th to FEB. 5th

THE Automobile Salon of 1921 presents to that limited group of discriminating motorists demanding the highest efficiency in motor travel, and who have the taste for individuality and true quality and the means to gratify that taste, the best in chassis design and construction—skilled engineering, highest grade materials and master workmanship—and the acme of the coach-builder's art. Here is the expression of that true elegance which defies imitation, correctness adapting itself to individual tastes—in motor cars that are harmonies of power and beauty.

G. O. P. SENATORS STRIVE FOR VOTE ON FARM TARIFF

Washington, D. C., Jan. 31.—Senate Republicans today asked unanimous consent for a vote Feb. 15 on the Fordney emergency tariff bill, and on objection being raised by Senator Pomeroy, Democrat, Ohio, presented their petition for cloture.

Senator Pomeroy denounced the bill as "taking about everything that goes on the breakfast table of the workingman."

U. S. Deputy Assigned to Tribune Tax Bureau

THE TRIBUNE income tax bureau in its new quarters in room 808 Tribune building, supplied more than 1,000 blanks yesterday and helped many taxpayers fill them out. The bureau is open from 9:30 until 5:30.

Harry W. Mager, the collector of internal revenue, instead of waiting until Feb. 1, assigned a deputy to THE TRIBUNE bureau yesterday. This provides expert assistance, as well as opportunity for the taxpayer to make proper affidavits concerning his schedule.

The internal revenue department urges taxpayers not to delay in the filing of returns, and to pay the tax in full on the date of filing, or in as few installments as possible.

The payment of the tax may be made by cash, money order, or check. Checks and money orders should be made out to the "Collector of Internal Revenue."

"MAIL ROBBERY SUSPECT" WANTED IN MANY CITIES

Edward Beverage, arrested Sunday by the police as a suspect in the Union station robbery, was taken in custody by the federal authorities last night. He will be arraigned before Commissioner Mason today.

Beverage, wanted in a score of cities for charges ranging from violation of the Mann act and the narcotics laws to automobile thefts and robbery, was arrested by Inspector Murphy when he appeared before Judge Joseph David on an application for a writ of habeas corpus. His wife, Mrs. Nora Beverage, and another woman, Mrs. Dolie Haggerty, who were arrested with him in a south side apartment, were released on writs.

Efforts to identify Beverage as a mysterious M. Diehl, an alleged brokerage employee who disposed of bonds valued at \$12,000 which had been stolen in the robbery, proved fruitless.

DAZED GIRL GOES HOME TO GARY; HER SISTER MUM

The mystery behind Laura Lounsbury's dazed visit to Chicago still exists. She defied inquisitive reporters and psychopathic hospital authorities yesterday, and fled back to Gary, Ind., with her sister, Mrs. Mamie Southern, without disclosing any reason for her strange actions.

Laura, who is 17, was found dazed at the Union station Sunday. She gave a fictitious name, and refused to say why she had come to Chicago. J. J. Russell, 425 North Central avenue, Austin, traced through his name on a slip of paper in the girl's purse, said he met her in Gary, shared his umbrella with her, and turned her over to the matron in the Chicago station after she insisted on kissing him good-by.

"Now, come along and be a good girl, and everything will be forgiven," said Mrs. Southern after identifying her sister.

THIS year, as in years past, we are exhibiting an Oakland Sensible Six operating cut-away chassis at the show. An inspection of it will reveal this traditional Oakland policy:

Never to include in an Oakland car a single non-essential, nor to omit a solitary necessity.

The Oakland Sensible Six is a composite of all those essentials that make for higher efficiency, greater comfort, longer life.

That's why you pay for value, and value alone, when you purchase an Oakland.

That's why every dollar invested in an Oakland Sensible Six today buys a full 100 cents' worth of automobile goodness.

The Automobile Show Forecasts Your Prosperity—Share It

Ten Billion Dollars Worth of Work To Be Done

Money, materials, and men are now ready to start work that has been neglected for three years.

The railroads must spend a billion dollars for repairs and improvements.

Another half-billion dollars must go into highway work.

Every locality is short of school buildings, houses, etc.

One city alone has sixteen million dollars available for sewers and water mains.

Hotels are needed everywhere.

Prices have been so high—men have been so busy at other things and money was so engaged in other enterprises that public work has not kept pace with our needs.

Now prices are down—workmen are eager for the jobs. Money seeks investment in such directions.

What Charles M. Schwab Says About It

"Never in our lifetime," says he, "have the shelves of the world been so bare. And I want to go on record as saying nothing could be healthier for American business than the very condition through which we are passing.

"It merely means that America has closed up its war factory and is jiggling up for peace production!"

Such Periods Do Not Last Long

Remember the things said about hard times when war ended.

Some predicted it would take two years to demobilize four million soldiers, for they said without jobs for the released men all activity must stop.

And Merchants did stop buying. Lower prices were prophesied. Factories felt it and slowed down.

But within six months we were at full production in all lines without enough workers to meet the needs.

The National Automobile Shows were held in January and February, 1919, just at the time when the most dire predictions were being made and when soldiers were coming home by the tens of thousands.

Our industry revealed its faith then.

We feel and show greater confidence now that prosperity for you and all of us is fast returning.

Transportation More Important Now

Production was the demand then.

Now distribution is of first importance. And economical distribution is impossible without the automobile.

Its influence touches every activity.

It extends to every cross-roads. Without it city transportation lines would break down under their increased burdens. The farmer would be unable to do his work or to deliver his goods to market.

Railroad lines would be deprived of the feeders that bring goods to them over every highway. Living costs would rise and land values would fall.

Requires a Million Automobiles For Replacements Alone

Can you imagine this city without automobiles?

Will anyone who has ever owned an automobile long endure without one?

Merely to maintain the present number means a replacement of a million cars a year.

Figure out your own future in the same way.

We are wearing out clothes and shoes faster than such articles are now produced.

A hundred million people must be fed and clothed and housed. Children are outgrowing their things.

Every article that people use will be wanted and people will find ways of getting them once that need is manifested.

We do not beat the drum of hollow optimism.

It is real. This Automobile Show and the Automobile Shows to be held in hundreds of other cities prove our faith.

Go to the Automobile Show if you would share our confidence.

JANUARY SHOWED SLIGHT BUT SURE BUSINESS GAIN

Federal Board Makes Its
Monthly Report.

(BY A STAFF CORRESPONDENT.)
Washington, D. C., Jan. 31.—[Special.]—A slight but unmistakable turn toward the better is claimed by the federal reserve board in its review of conditions for the month of January made public tonight.

The board comments on the recent estimate of the United States employment service that 3,473,466 fewer were employed in industry Jan. 1 than a year ago and says there has been only a slight increase in industrial activity. "There has been no revival of industrial operations on a scale to reduce which was prevalent a month ago," says the board.

Some Relief in New England.
"It is probable, however, that the slight increase in activity in leading New England industries during the month has brought a measure of relief. In the south and west, the situation has become more acute, while in the San Francisco district, previously only slightly affected, unemployment is abnormally great for this season."

"Wage reductions have likewise continued and have spread to sections where wage rates have hitherto been maintained at high levels. In the New England district probably 100,000 operatives in textile mills have been affected by wage reductions which on the average amount to about 22 1/2 per cent."

Decrease in Wholesale Trade.
It is stated that the decrease in wholesale trade activity continued throughout the month. Sales as measured in terms of value were extremely light and losses were reported both as compared with the preceding month and a year ago. Retailers generally have placed few orders.

The board reports that banking conditions have materially improved, "partly through the steadier and more rapid movement of agricultural products to market and partly through the more rapid liquidation of paper held by member banks."

It is noted that the reserve ratio had risen to 49 per cent at the last reporting date in the month, Jan. 28.

Ford Plant Reopens.
Detroit, Mich., Jan. 31.—[Special.]—For the first time since Dec. 23 wheels in every department of the Ford Motor company's Highland Park plant started at 7 o'clock this morning. During the week it is expected that other Ford men summoned from day to day by postcard will be added to the returning army until approximately 50 per cent normal production has been reached. Developments thereafter, it is said, depend entirely on the buying attitude of the country.

At the time of the shutdown in December 40,000 were employed in the Highland Park plant. The company is putting back on the job married men and "dependable workmen among the unemployed."

Activities are shown in several other automobile plants, including the Cadillac, Fisher Body, Wadsworth Manufacturing company, Columbia

Manufacturing company, and the Briggs Manufacturing company.

GRAND JURY MAY ACT THIS WEEK ON CRANE CASE

Grand jury action in the case of Herbert Prentice Crane Jr., who is alleged to have annoyed 13 year old Louise Sturm, is expected this week. Benjamin Newmark, chief investigator for State's Attorney Robert E. Crowe, yesterday completed an investigation during which he obtained statements from the Sturm girl, Theresa Fisher, who was with her when the alleged attack occurred; Lieut. Sam Pincus, and Policeman John Keifer of the Lincoln park police. He expects to have them called before the grand jury within a few days.

Where the Weight Falls First— and the Road-Shock is Absorbed

IT'S the frame that stands the gaff—both ways. A road-shock that causes an ordinary frame to buckle ever so slightly—to stay "just a bit out" permanently injures a car or truck.

A frame that does not absorb weight evenly and uniformly—that is not capable of uninterrupted service on bad roads under maximum loads—is wrong.

Ordinary frames losing alignment, increase gas consumption, increase repair bills, decrease tire mileage.

Parish Foundation Frames—heat-treated like a fine tool—are nearly 50% lighter than ordinary frames for equal carrying capacity and are the foundations of many of America's finest cars and trucks.

In order to have space for a complete exhibit, the Essex is holding its own show this year in our salesroom, 1615 South Michigan Avenue.

We have particularly in mind the greater convenience this affords to the many hundreds who are interested especially in the Essex.

A feature of the display is one of the four Essex transcontinental record breakers.

All models of the Essex including the new two passenger Cabriolet are being shown in space that permits the closest examination without crowding. Demonstrating cars are on duty at all times so that you may judge the car on the road. Come in and see the Essex. Examine the cars. See the transcontinental record breaker. Let us explain the points that made it possible to sell 50,000 Essex cars in two years.

The constant goodness 50,000 owners have found in the Essex is a proof that carries more conviction than even the famous endurance records it has set.

Motor Truck Deterioration

On account of the lack of proper storage facilities available, our government has been forced to store in the open during the years 1918, 1919 and 1920 many idle motor vehicles. Naturally, they must have greatly deteriorated.

Many motor truck owners fail to appreciate the rapid deterioration which takes place when their equipment is not stored or garaged where it is protected from the elements.

Trucks which are permitted to stand idle and uncared for in the cold, sleet, rain or hot sunshine soon become badly damaged and unsafe.

Internal as well as external parts, cylinder walls, bearings, frame parts, bolts, nuts and rivets become pitted and rusted.

Do not fail to protect your investment in motor trucks as you would any other piece of machinery when not in use by keeping them in a dry, covered place and properly oiled and greased.

FELSCH VISITS CITY TO PUT UP BONDS FOR TRIAL

BY JAMES CRUSINBERRY.

Oscar "Happy" Felsch, one of the eight indicted White Sox ball players, made a quiet visit to Chicago yesterday, during which he called at the Criminal Court building and attended to a little matter of a bond for \$10,000 to guarantee his appearance at trial. It was the first time, so far as is known, that the once sparkling outfielder has been in the city since the big blow-up and exposure of his crookedness on the Sox team. Immediately following the confessions of Clete, Williams and Jackson, Felsch left the city, and after staying a few days at his home in Milwaukee, departed for Fox Lake, Wis., where he has been sequestered ever since.

HAPPY FELSCH. (TRIBUNE Photo.)

Confession Alleged.

Felsch never confessed to the grand jury, but was said to have admitted to a newspaper man that he got \$5,000 out of the gamblers, and ran it up to \$15,000 by betting on Cincinnati. A Chicago woman, Bridget Quirk, of 18 South Hamilton boulevard, signed Felsch's bond, and scheduled property worth \$25,000. There are two charges against the diamond star, \$5,000 being required on each. One is for obtaining money by a confidence game, and the other for conspiracy to defraud. Felsch was accompanied by Attorney Thomas D. Nash, who is said to be employed also by Buck Weaver, Swede Risberg and Fred McMullin.

Trials Within Sixty Days.

The trials of the ball players may be called within sixty days, according to a statement yesterday by State Attorney Robert E. Crowe. When confronted with a story published last week in a New York paper, saying that it wasn't likely the players ever would be tried, and that the indictments were being pigeonholed, Crowe denied emphatically that such was the case. "There never has been any such thought in my mind," he said. "Since taking the office of state attorney, I have increased the working force, and done everything I could to bring about a hearing of a case within sixty days. However, there has been so much on hand that as yet the baseball case hasn't come up."

Confidence in Gorman.

"I appointed Attorney George Gorman to take charge of the baseball cases. I consider him one of the best trial lawyers in Chicago. If it had been the idea to pigeonhole them, I hardly would have put a man of his caliber on the case. So far, Mr. Gorman has been kept busy with other cases of importance."

Tris Speaker to Shoot in Sunny South Tourney

Houston, Tex., Jan. 31.—Among the trapeze artists here for the annual Sunny South preliminary program is Tris Speaker, manager of the Cleveland Indians, Frank Troeh, Harvey Dixon and other notable amateurs are present. The shoot proper begins Wednesday.

C. A. A. U. SWIMS AT GREAT LAKES

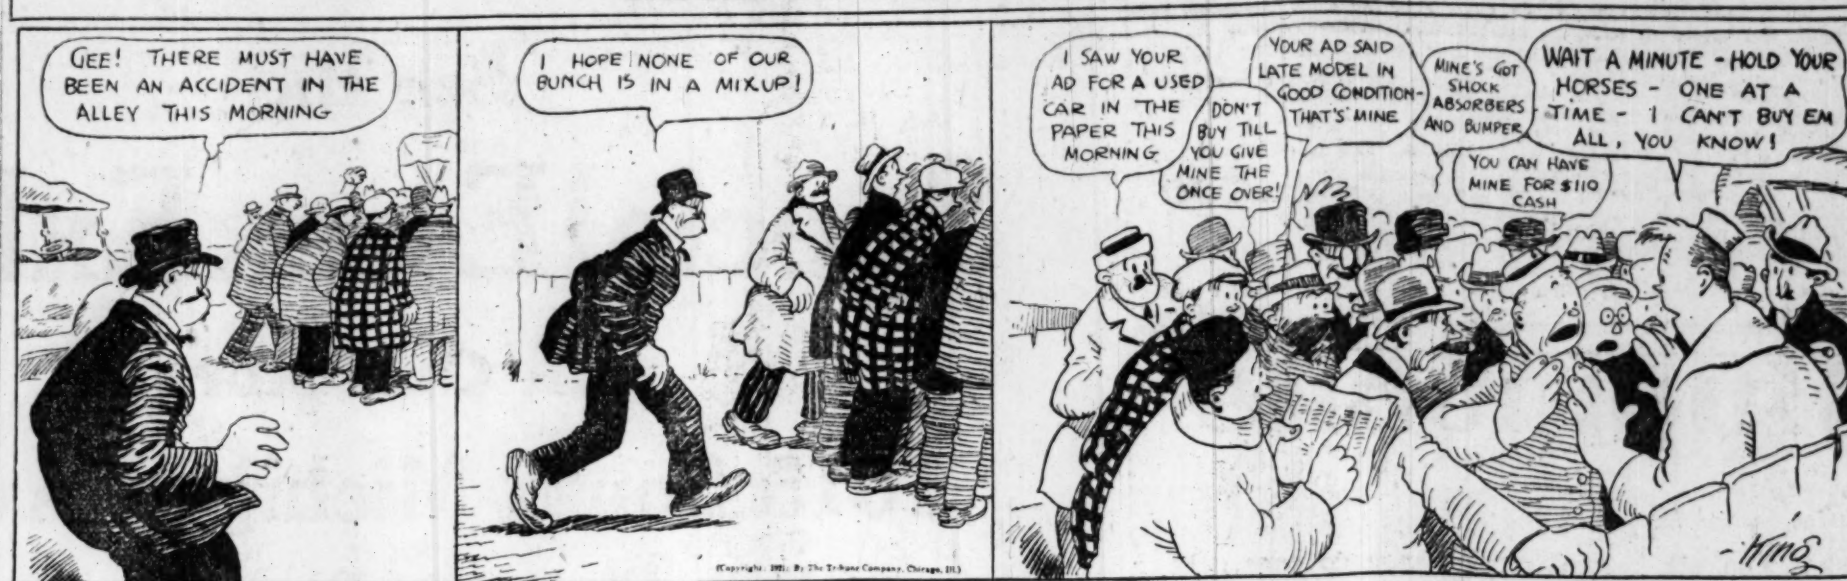

Two Central A. A. U. championships and four open swimming events will be conducted by the Great Lakes A. A. U. tonight at the naval training station pool. The 150 yard back stroke, senior, for men, and 100 yard breast stroke, junior, for men, are the events to be held, while there will be open 100 and 220 yard swims for men and open 100 yard swim and fancy diving for women. The meet will start at 8 o'clock.

HERMAN OUT OF HIS CLASS.

Pete Herman's seventeen round win over Jimmy Wilde gives a pretty good line on the fighting ability of Bantamweight Champion Joe Lynch, who whipped Herman just before Herman sailed across to fight Wilde. Lynch can whip Herman any time they start. Herman was just giving himself a pat on the back when he said: "Wilde is the greatest fighter I have ever seen."

Herman weighed 119½ pounds in his fight with Wilde, being no bantam, but a real featherweight, while the little English champion weighed at least ten pounds less. Credit where credit is due.

GASOLINE ALLEY—HELP! HELP!

SPORTS through Eegren's EYES

BY ROBERT EDGREN.

THE international Olympic committee announces it has just about settled down to a decision that the next Olympic games will be held at Rome, Paris, Pasadena or Copenhagen, if not somewhere else. Unofficially, the committee is said to favor Rome, on the ground that Rome is about due for a big show, not having seen anything of importance in the sporting life since Julius Caesar won the Hellespont swimming race in full armor and Antony clipped two days off the Rome-Alexandria Marathon record. Nineteen hundred years is a long time to go without a set of games.

Pasadena's claims are strong, too. Pasadena promises to use thornless roses to crown the victors, which will be quite an improvement on the commonplace laurel wreaths used in Athens and the bottles and gun butts with which several winning Americans were "crowned" by enthusiastic Belgians at Antwerp.

Some of our athletes would look pretty crowned with roses. Pat McDonald and Pat Ryan peeping shyly out from under the rose wreaths would be worth a picture.

The committee is said to regard Paris as a pretty good place for the next Olympic games, but y'betcha the committee has a personal motive in that. Paris is one grand little town. As for Copenhagen, why anyone should want to hold anything there but an inquest is something the committee fails to explain.

ONE WAY OF LOOKING AT IT.

New Stanislas Zyzanski seems to find himself outside the wrestling combine and forced to get along without matches with alleged title holders. Wrestling is a good sport when it's on the level, but unadvised wrestling games are almost unknown. For years a "wrestling trust" has controlled many wrestlers in this country, has arranged schedules of matches and privately arranged the results, has had its most useful actors and has barred all real competition by uncontrolled outsiders.

A list of the big fakes pulled off in wrestling during the last three or four years would surprise a lot of people. It's easy to fake in wrestling. I've seen some of the rawest fellows on record, and going out have heard the crowd enthusiastically talk about what a great show it was.

"I give 'em what they want," said one promoter. "If the bouts were on the level they'd go home sore. There's nothing more tiresome than a match on the level, with the circus stuff cut out. What's the difference as long as they go home happy?"

BRIBING PLAYER IN NEW YORK MAY COST FINE, JAIL

Albany, N. Y., Jan. 31.—[Special.]—The New York state legislature has before it tonight a bill designed to cleanse baseball from the possibility of anything approaching the Chicago baseball scandal.

Senator Frederick W. Kavanaugh of Saratoga and Assemblyman John T. Merrigan of Albany introduced a bill fixing a penalty of not more than \$10,000 fine and imprisonment for not less than one year nor more than five years for any person attempting to bribe a baseball player or for any player accepting a bribe.

Adoption of the bill was urged by John J. Evers, manager of the Chicago Cubs, who visited the capitol tonight. "By all means pass this bill, not as a club over the actual players' heads, but as a preventive measure to outside gambling influences," he said.

On Feb. 8 Ray will run one and one-half miles in the Milrose A. C. games to be held in Madison Square garden. Ray will attempt to gain another leg on the Wanamaker, trophy by winning this event. On Feb. 12 the I. A. C. star will run 3,000 meters in the games of the 13th regiment at Brooklyn. A week later he will step 3,000 meters in the Guaranty Games to be held at Madison Square garden.

Guillemot Coming from France for Gotham Meet

New York, Jan. 31.—[Special.]—Positive announcement that Josef Guillemot, French distance runner, who won the Olympic 5,000 meter title, will compete in the Guaranty club's indoor meet at Madison Square garden Feb. 19, was made by the club today. Guillemot, a corporal in the French army, has obtained a leave of absence.

A Car For Every Requirement

Five, sturdy Stutz models are shown at the Automobile Show.

There is a car for every taste and circumstance.

The beautiful Coupe is the latest Stutz achievement. The custom built body matches the mechanical perfection and engineering superiorities of the famous Stutz engine and chassis. Accommodating three or four people comfortably, the Stutz Coupe is distinctive, dignified, artistic and pleasing in lines and design. The rear is a distinct innovation in closed car construction.

Comfortable, serviceable and economically operated, the Stutz Touring Car for six or seven passengers is an ideal family car.

There is a vivid suggestion of manliness, character and physical prowess in the graceful lines and appearance of the Stutz Bearcat.

The Stutz Close-Coupled Sport Model is a car with an unusually strong appeal for attention. Sporty and racy in appearance, there is withal, dignity, grace and character in the makeup of this model for four or five people.

Admired, trusted and respected, the Stutz Roadster lives up to an unusual reputation gained through faithful service to the most discriminating owners. Roomy and comfortable, it carries you over the road with an ease and grace that is astonishing.

And back of every Stutz car are absolute proofs of the greatest return per dollar invested. Evidence of Stutz value is ready for you at the show or any Stutz dealers'.

BY HARRY NEWMAN.
New York, Jan. 31.—[Special.]—Following the arrival in our fair city of Jack Kearns, manager of Jack Dempsey, a series of conferences were held dealing with the Dempsey-Carpenter boxing championship bout brought to Montreal. The social service council objected in a telegram to Premier Taschereau of Quebec. Replying today, the premier said any proposal from the fight promoters would be a federal question determined under the criminal code provisions.

Mrs. John Scott of the Montreal Women's club said she did not wish to see Montreal made "an easy mark for such an enterprise."

Tex Rickard will go it alone, and the million dollar glamour (TRIBUNE Photo.) will be eliminated. William A. Brady and Charles B. Cochran, who were associated with Rickard, have withdrawn from any participation in the show.

Accept Percentage Basis.
Kearns is willing to string along with Rickard, and announced a willingness to have the champion box on a percentage basis. Georges Carpentier, it is understood, also is willing to have Rickard conduct the bout, and will agree to gamble with the percentage idea.

When Kearns arrived he was keen for action, and said about finding the reasons for the obstacles which have enmeshed the proposed bout since he left for California several weeks ago. "If these promoters fail to go through with their contract, I will claim their forfeits," was Kearns' introductory remark to a score of news chroniclers.

To String with Rickard.
"I guess the boxers ought to have some consideration, and if any one tries to dodge his obligations I think that we have some redress. If Brady and Cochran withdraw, and Tex Rickard consents to conduct the bout alone, I am willing to string along with him, even to the extent of boxing on a percentage basis."

Text Butonholes Kearns.
At this juncture Rickard appeared on the scene, and immediately went into secret conference with Dempsey's manager. Tex and Jack buzzed it out for some time, and when it was over Kearns held further discourse with the reporters.

"Tex is determined to go on with the contest alone," Kearns said, "and that will call for a new deal all around. We want to play fair, and will accept any reasonable offer on a percentage score. Tex never wanted boxers to work on a percentage, but preferred to have a flat price in all negotiations."

As to the Willard Bout.
"As to the proposed Dempsey-Willard match March 17," Kearns explained, "Rickard wants to hear further from Willard, who now is in St. Louis, and will not be back until Wednesday. No date has been definitely decided on for that match, but Rickard wants us to consider a percentage arrangement for that bout also."

"We are ready to go along with the bout, but I must have immediate action, otherwise I will be compelled to consider other offers. It has been suggested the Dempsey-Carpenter bout might be held in New Jersey, and I don't know but what it would be a good scheme if it could be arranged to the satisfaction of every one concerned."

WOMEN PROTESTING HOLDING OF TITLE BATTLE IN MONTREAL

MONTREAL, Que., Jan. 31.—Women's organizations here are vigorously protesting the attempt to have the Dempsey-Carpenter heavyweight boxing championship bout brought to Montreal. The social service council objected in a telegram to Premier Taschereau of Quebec. Replying today, the premier said any proposal from the fight promoters would be a federal question determined under the criminal code provisions.

Mrs. John Scott of the Montreal Women's club said she did not wish to see Montreal made "an easy mark for such an enterprise."

GARDNER HEADS AWARDED BODY OF GOLF ASSN.

New York, Jan. 31.—The British open golf championship tournament will begin at St. Andrews June 20, it was stated in a cable message received today by the United States Golf association.

Tentative dates for the three American championships—open, amateur and women's—have been selected, but will not be announced for a few days, to insure the dates are satisfactory to both American and foreign players.

Robert Gardner of Chicago, former national amateur titleholder, has been appointed as head of the committee which will select courses for the 1922 championships. He will be aided by W. C. Fownes Jr., Pittsburgh, and Thomas B. Payne, Atlanta.

AUGIE HAS LEAD ON MASKED RIVAL
Masked Marvel X, the mystery man of billiards, who recently defeated Charley Otis in New York and Hugh Heal in Toledo, fell 6 points behind in the first two blocks of his 200 point match with Augie Kleckhefer at the Recreation room yesterday.

Augie won the afternoon block, 50 to 35, in 63 innings, getting high run of 7. The Marvel won the night session, 54 to 50, in 71 innings, getting high run of 6. This left Augie in front, 100 to 84. The third block will be played this afternoon.

Burmester defeated Olson, 200 to 197, in the bulk line tournament of the Utilities league at Mussey's Monroe street room. Tonight Kaiser, Swanson, Thompson, Edwards, Lindquist, and Mison will compete in the elimination series of the state amateur three cushion championship.

STEINMETZ MOVES ON INTO GRADUATE RANK OF SILVER SKATERS

BY WALTER ECKERSALL.
As a result of the successful staging of THE TRIBUNE Silver Skates derbies last Sunday, despite adverse weather conditions, William Steinmetz of the Norwegian-American A. A. victor in the senior derby, is eliminated from further competition in the races.

When the first event was held five years ago this Tribune inserted a rule that all winners of the senior contests be barred from future races. As a result Steinmetz now joins the ranks with Art Staff, winner of the first derby, Sigurd ("Brick") Larsen, victor in the second contest, and Roy McWhirter, who won last year. Charles Flaher of Milwaukee was the third race. He died a year ago.

Divide Women's Derby.
Interest taken by the girls in their first derby plainly showed the race must be divided into classes, one for the smaller skaters and the other for the larger and stronger experts. Next year the girls' derby will be run in two sections. An age limit will be placed on girls for the junior derby, and all over the selected age will go into the senior race.

As a result of her victory in the girls' first Silver Skates derby, Miss Rose Johnson, international women's champion, who skated under the colors of the Northwest Skating club, will be barred from future races, the same as Steinmetz.

Hollander Goes to Senior Class.
Johnny Hollander of the Northwest Skating club, who came down from Milwaukee to win a pair of silver skates in the junior derby, now graduates to the senior derby. Johnny has just passed his fifteenth birthday and would not be eligible to skate in the junior event next year, even if he had not won. His victory does not bar him from the senior derby.

The young Milwaukee flier is the third speed demon to win the event. Julian Steinmetz of the Norwegian-American A. A. was victor in the first race and George Thomson of Avondale playground won the contest last year.

HOPPER'S CUE BEATS JOHNSON.
Hopper (40) defeated Johnson (75), 40 to 40, in the three cushion tournament at Foley's. Tonight Smith (65) plays Davis (40).

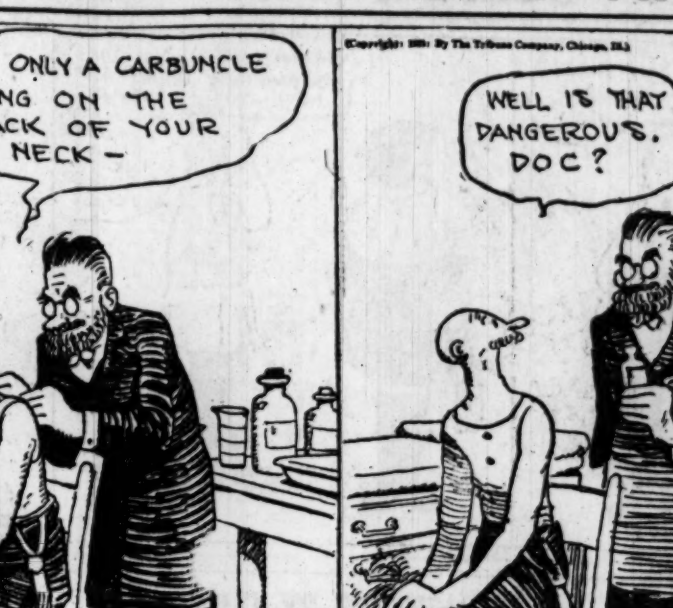

Weather and Ice in Good Shape for National Races
Sarane Lake, N. Y., Jan. 31.—Ideal weather conditions and perfect ice appear probable for tomorrow when a field of seven skaters will be sent away in the first senior and junior events of the national amateur skating championships, scheduled to last three days.

BURKE STOPPED BY BOB MARTIN
New Orleans, La., Jan. 31.—Bob Martin, A. E. F. champion, scored a technical knockout over Martin Burke, New Orleans light heavyweight, in the fifth round of their scheduled fifteen round fight tonight. Referee Dorr stopped the fight as Burke was hanging on the ropes just after taking the count of nine.

LEWIS PINS Foe WITH TOE HOLD
Boston, Mass., Jan. 31.—Ed (Strangler) Lewis, world's mat champion, threw Renato Gardini, Italian heavyweight, tonight without using his famous "headlock," which has aroused opposition among wrestlers and the public. He pinned Gardini's shoulders to the mat with a toe hold in 1:35:20.

MANLY TYPES.
CAR KAZZEM certainly started something when he advocated a campaign for a more manly type of young men with an attack on the boys with their paired down center aisle, spats, etcetera. About half The Wake's mail yesterday consisted of pros and cons to the discussion. Here are a few:

Dear Harvey T.: I know a young chap with bell bottom trousers, spats, low collars with string ties and a flat derby hat—wears his hair slicked over his well balanced bean—too. He's a two-fisted guy with plenty of steam. He doesn't have time to dance, but he did have time to go over to France. I know about HIM because I'm His Wife.

From the days of Babylon, the older generation has held up its hands in horror at youth and its devious methods in overcoming the toxin of adolescence. The casualty list in the recent war was a goodly number of tea hounds, but very few of blue nosed critics of manners and morals.

I'd love to tell you just what I think of the sleek nondescripts who infect our dances nowadays, but us girls aren't supposed to use that kind of language. Our command of good old Anglo-Saxon cuss words is still limited to the dashes and asterisks of our mid-Victorian grandmothers. A Jane.

For the benefit of the gentlemen who don't know whether to "kiss 'em or kick 'em," I took a poke at one of them my sorrow. I have since learned that this dude makes 35 ringside and packs a K. O. in either one of his manured mitts. I can testify to the K. O. in one of them. Spike.

Waller and Schurz FIVES PLAY TO TIE IN FIRST LEAGUE GAME
Waller and Schurz heavyweight basketball teams battled to a 15 to 15 tie in the opening game of the northern section of the Chicago High School League yesterday. Waller lightweights met with better success in the curtain raiser, however, defeating Schurz, 11 to 7.

ENGLEWOOD WINS TWO GAMES.
Englewood started off in the Central section with a double victory over Tilden, the heavyweights winning, 15 to 10, and the lightweights, 27 to 4. Fols was the star of the heavy game, slinking four ringers. Heavyweight lineup:

NEAR HOME ADVENTURING.
THOSE city folks who care to go adventuring in wild places may do so without getting out of sight of the Chicago skyline, for Lake Michigan has much to offer those who love danger and hardship. Let Fish Berg, beach comb extraordinaire, tell of a day's duck hunt on the big lake. The duck shooting season is over, but the lake, the ducks, the rocks, the ice are still there.

"It is a dangerous place I go alone to shoot—dangerous in the morning's darkness and in equal—where a jet of rocks rises to Lake Michigan's surface, deposited there by moving ice, carried from some Lincoln park improvement. On a southwest wind and at low water there is scarcely blinding cover; barely enough projection to beach an upturned boat."

"In the dense darkness of a winter morning it is a weird spot. At dawn the inevitable happens. A flock of mergansers or fish ducks decoy, peck at the wooden ducks, scold them in low guttural when saw-bills knock on wood. But they are safe."

"The fowler smiles in memory of market hunting days when the merganser adorned the board of hotel and club."

"Presently a pair of golden eye interrupt my thoughts. On whistling wing they swing; tail spread with web abreast they reach the blocks and alight. A flock of blue bills follow; a lone kowin pitches in. Suddenly the morning air is astir with wings."

"The comber freezes to the rocks, for lakeward against the brightening east a waving, breaking line appears, spread out, clustering, gaining uniform formation at deceiving range. A lone bird leaves the flock, heading towards me; another follows; two more; five spread out; the flock turns. There is a roar of wings; wide bodies; curved plumes, long sloping heads, tails fanned—canvases backs! Two alight."

"The flock turns sharply, banking in the wind—there is a glitter of white backs; they're on me. I grab my gun, swing well ahead, and press the trigger. No response, no burst of smoke, no recoil. I glance at my gun hammer—it is frozen! I laugh in the joy of the thrill, anyway. It is just as well; the market days are over and the fowler kills not for the killing."

MARON TOSSERS ARE HUMBLD BY HAWKEYES, 17-16

Iowa City, Ia., Jan. 31.—[Special.]—Iowa whipped the Chicago five in a big Ten game tonight, 17 to 16. The game was the fastest played on the Iowa floor this year.

After Shimek had tossed a basket that put Iowa ahead, Chicago tried desperately for a ringer, but Iowa's defense was too strong. With forty seconds to play and Iowa holding the one point lead, the Hawkeyes took the ball down the floor and retained it until the gun sounded.

Lohman and Shimek each threw three baskets, while Capt. Kaufmann starred with his guarding, holding Vollmer to one basket and playing the Maroon star off his feet.

Frederick scored two baskets, but did so without getting out of sight of the Chicago skyline, for Lake Michigan has much to offer those who love danger and hardship. Let Fish Berg, beach comb extraordinaire, tell of a day's duck hunt on the big lake. The duck shooting season is over, but the lake, the ducks, the rocks, the ice are still there.

Where Luxury Has Become a Necessity This Car Finds Its Firmest Friends

WHERE mere mileage is all that one requires of a motor car, it is not the part of good judgment to buy PREMIER. But there are those who, along with their mileage insist on a motor car living up to a certain social position, caste distinction—and all that sort of thing. Under these circumstances PREMIER is very satisfactory. It measures up to the sternest standards of workmanship, material, and exclusiveness of body appearance. Frankly, it is one of the world's three finest motor cars. And in flexibility, and mechanical alertness, it is without a peer. A PREMIER will establish you as a person of true motor car discrimination.

A Fine Film if It Is the Kind You Like

"IMMORTALITY."
Produced by Cines Company of Roma.
Directed by Gualtiero. Presented at Barbo's.

By Mae Tinee.
"Beyond criticism," say the ads, is this picture. So, all right, we'll just talk about it.

Former Lieut. Gov. Barratt O'Hara is the fond sponsor of the film, I am told. As it is a most ambitious offering of its kind, and must have taken months in the making, you must credit the former L. G. with being a crystal gazer or something of the kind. He must have seen the wave of morality about to sweep the land. Movieless (Evans) and blue Sunday must have been revealed to him. And unto him must have come a vision of the movie no censor would reject, no church censor, no uplift committee, bark at, no woman's club cackle into oblivion. He would beautifully and accurately picture the story of the life of Christ as told in the New Testament. It would call it "Immortality." (Just keep that title in mind for a minute.)

"Immortality" is the Bible stories as you learned them in your youth. It is the colored picture cards as they used to be in the days when you went to Sunday school. The infant Christ, the youth Christ teaching in the synagogues, the Christ of miracles, betrayed by Judas, crucified, dead and buried, is as portrayed by the screen character Christ as I think most of us have imagined Him. M. Pasquall plays the adult role.

The production is most beautifully photographed and most excellently directed. From the standpoint of technique I should consider it quite a masterpiece. The costumes and sets could be no better.

Whether or not it appeals to you depends entirely upon several things. Do you care to see holy things commercialized? Will you have your religion at church or at the theater? Did you read the title correctly?

I said to an official as I came out of the theater: "Do you think this will be a box-office success?"

"Well," he said, pointing to the camel and donkey in the lobby borrowed from "Moses," "the first two days have been fine. You see," he added, with a grin, "the title is a little deluding."

"What do you mean 'deluding'?" I asked him. He answered:

"They think it's 'Immortality.'"

DORIS BLAKE'S ANSWERS

Speak Gently but Firmly.

"Dear Miss Blake: I am 17 years old and considered pretty. Occasionally I go out with young men, and when saying good night they always wish to kiss me, and I refuse, and then they seem to be peeved. Would you consider any of these young men worth while, or are all of the young men alike, always expecting something from the girl they take out?" Marc.

Perhaps all they need is a little talking to. I am afraid some of the present day youths have the erroneous impression that is part of their evening's job. Suppose you tell the next one that that is not your idea of the end of a perfect evening. You might remind him he would not want to feel his own sister was put to that embarrassment.

ORIGIN OF PRUNES

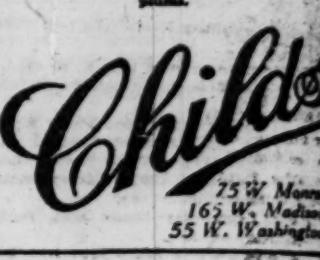

In the early days of the Roman Empire plums were not grown in Europe.

Yet the Romans were so fond of them that they had them brought from Egypt—

A voyage so long as to necessitate drying the fruit to keep it from deteriorating.

Thus are we indebted to Egypt for prunes—one of the pleasures of the table at CHILDS.

Large, luscious prunes with the delicious flavor of the plum.

MAYWHEAT, CORN AND OATS DROP TO SEASON'S LOW

BY CHARLES D. MICHAELS.

The grain markets were without substantial buying power after an early bulge due to covering among the short sellers. Prices then stepped down and continued without interruption until the finish, which was the lowest of the present downturn. It also was the lowest of the season for May wheat and all deliveries of corn and oats. Closing trades showed wheat off 2 1/2 to 3 1/2, corn 1/2 to 1, and oats 1/2 to 1. Grain prices are so low farmers have to wait three to five months to get a year ago, while it takes a bushel of oats to buy a package of cigarettes in western Nebraska. The weak buying power stands out above all other conditions. It is a case where conditions, not prices, are the governing factors. For the present the impression prevails that economic conditions are against the price.

Cash British Wheat Prices.

Absence of export demand, combined with a break of 1/2% in Argentine prices at the opening and a small railroad strike created an uncertain feeling. Labor trouble also prevailed in India, yet India shipped 864,000 bu last week and Australia 2,162,000 bu, making 6,000,000 bu so far this month. The British government is using every measure to depress prices and has reduced prices for American wheat 5s and Argentine 10s.

This created a depressed feeling here. But at the same time there was a rally of 1/4% from the early low, with a covering movement on. This was lost later as selling increased, while the buying was poor, and a decline of 1/4% followed, with the close at \$1.05 for March and \$1.14 for May, the latter being the lowest of the season so far. Bullish statistics failed to count. The visible decreased 1,666,000 bu, against 2,320,000 bu last year. Seaboard clearances were 2,447,000 bu.

Corn Stocks Increasing.

Corn is piling up fast. The visible supply increased 4,500,000 bu last week, against 7,000 bu last year. The total is 14,297,000 bu, against 3,075,000 bu last year. Liquidation and hedging sales were effective, after an advance of 1/4% over Saturday's close, while the inside price was 44 1/2, where it closed. Arrivals of 600 cars were more than ample for requirements.

Oats made new lows, with May down to 41 1/2. Hedging pressure and the break in corn had a depressing effect. Stocks are increasing with a gain of 15,000 bu, making it 22,622,000 bu, or about three times last year's. Rye was hard to sell at the last and broke sharply. Cash demand was in evidence, with light offerings restricting business. The visible decreased 37,000 bu. Cash barley was off 20 1/2.

Provision Prices Lower.

Lower prices were made for all provisions with liquidation on and buying weak. Exports of lard showed more than double last year's, while in bacon it was the reverse. Cash trade was light. At the close pork was 30 1/2 to 30 3/4, lard off 2 1/2, and short ribs 52 1/2 to 53. Prices follow:

Quality-Price-Service

That keen interest of business men has been aroused through our very attractive offerings in Quality, Price and Service in Office Furniture is evidenced by the increasing number of new customers whom we are serving in the Chicago and National fields. Investigate our display in—

We carry a very complete line of Steel Files, consisting of Letter, Check and Card Index Files, Counter Height Units, Horizontal Sections, Safes, Cupboards, Desks, etc. These will interchange with any standard equipment.

We are Western Distributors of the Canton Art Metal Company, one of the oldest and best known manufacturers of high grade steel furniture in the country. Large stocks on hand for immediate delivery. No waiting.

Estimates submitted on Special Steel Furniture and Fixtures for Private Offices, Banks, City, State and Government offices, etc.

Also in stock a complete line of wood files in Oak and Mahogany.

Steel Files and Furniture

Newton & Hoit offer you better furniture at LOWER PRICES than you have paid others.

We also offer you a personal service in connection with every sale not to be obtained elsewhere. Our guarantees are broad and specific—covering style, quality and price. Deliveries are prompt—locally or out of town.

Files Our Files, as well as our complete line of other office furniture, are commercially priced, based on quantity production and distribution. Our **Files** prices do not include a large percentage for filing instruction which the average buyer is not interested in. Everything else we sell is sold on the same basis—and no extras added.

Buy NOW! Our Guarantee Protects You

Buy now of Newton & Hoit. We guarantee you against a decline in prices within 60 days from your purchase. Furniture held for future delivery. Our regular prices are lower than "Special Sale" Prices and you get standard designs that you can later duplicate and not obsolete types sold as "bargains." Our price guarantee also protects you on quality.

Prompt Shipments to Out-of-Town Buyers. Send for Catalog.

Our Display Rooms Are Conveniently Located. Only ten minutes from State and Randolph; only five minutes from Wabash and Adams. Wabash Avenue cars pass the door; State Street cars one block away. One minute walk from the Elevated at 12th Street, or drive down Michigan Boulevard just one block west of Grant Park on Wabash at 11th Street. Call and see us, or phone Harrison 8960 for salesman.

Open Until 4 P. M. on Saturdays

File Supplies

The Newton & Hoit line of Folders, Cards, Indexes, etc., is the most modern and complete on the market. Can be used in any make of files. Our prices anticipate any decline probably for months to come. Investigate—it means better quality at less cost.

We also carry ready for immediate delivery complete stock of Transfer Cases in Wood and Steel.
